The War-Time Flower Garden

THIS is our main offer, which constitutes to-day the most thoroughly unique and original treatise on flowers. Containing only the choicest varieties of Flower Seeds, Plants and Bulbs, all of the less desirable having been discarded.

No one with an atom of joy or sympathy or love of the beautiful in his make-up, will cease to grow flowers this year the same as usual. There is probably no outdoor occupation more pleasing than the cultivation of flowers, and none from which so much good is derived. Grow flowers this year above all, for the mental relaxation and for the need of their cheery companionship and health-giving exercise. The American public has at last been thoroughly aroused, and as in all matters we are never half-hearted about any undertaking. America's thoroughness is its foremost recommendation. Better another Meatless or Wheatless day per week, than Flowerless days all summer.

Heatherhome's Flower Seeds have proven a revelation to American Gardeners. We have in past years developed many wonderful products that have never yet been equaled. This year we again have several marvelous novelties that all garden-lovers should grow and enjoy.

For your convenience, we have divided this book into different chapters, each one covering a certain group, as follows:

Page 2	Lawn Grass.
Pages 3 and 4	Flower Seed Novelties and Specialties.
Pages 5 to 27	The General List of Annual Flower Seeds.
Page 28	Seeds of Climbing Annuals.
Pages 29 and 30	Seeds of Plants for Greenhouse Culture.
Page 31	Miscellaneous Summer Flowering Bulbs.
Pages 32 to 34	Gladioli.
Pages 35 and 36	Dahlias.
Pages 37 and 38	Roses.
Pages 39 to 62	Seeds and Plants of Perennials.
Page 63	Sundries.
Page 64	Index.

We are at all times pleased to recommend Gardeners or Superintendents of known ability to estate owners.

Business Terms

Please use our order sheet in all cases, as it will materially assist in the prompt handling of your order. Any correspondence of whatever nature should be on a separate sheet.

We are responsible for the safe arrival of all seeds shipped via mail or express, but goods shipped via freight travel at the purchaser's risk.

The prices on all of the seeds in this book include delivery, but on plants, bulbs and sundries the purchaser pays the transportation charges, whether sent by parcel post or express.

All orders from persons unknown to us must be accompanied either by a remittance or suitable bank references.

GUARANTEE—We guarantee all our seeds, plants and bulbs to be of high quality and true to name unless otherwise noted. All claims must be made immediately upon receipt of goods.

LAWN GRASS

Sow Heatherhome Lawn Grass Seed for a Perfect Lawn

After thorough tests we are convinced that our Lawn Grass is the best mixture ever made up for the American Gardener, and one needs only to give it a trial to be of the same mind.

Heatherhome Lawn Grass Seed is composed of dwarf, fine-leaved grasses, producing a closely interwoven deep turf, maintaining from year to year a beautiful carpet of rich perfect green.

This mixture will withstand frequent close cutting and tramping. It is clean heavy seed, and will give excellent results with a minimum quantity.

Heatherhome Lawn Grass will weigh more than 20 pounds to the bushel, and one bushel will be quite enough for sowing a quarter of an acre if sown properly. One quart will sow about 500 square feet.

We offer this mixture as follows:

Per quart, \$.35; 4 quarts, \$1.25; per peck, \$2.25; per bushel, \$7.50

The "Under Trees" Lawn Grass

Because of the difficulties in obtaining a satisfactory growth of grass under trees, and in shady spots, we recommend this special mixture for sowing in such places.

This mixture will rapidly produce an abundant even growth of beautiful green, and blends well with our regular mixture, thus covering the whole area with perfect green carpet.

We offer the "Under Trees" Mixture as follows:

Per quart, \$.50; 4 quarts, \$1.75; per peck, \$3.00; per bushel, \$10.00

White Clover

A small quantity only of White Clover is included in our grass seed mixture; in fact, enough only to help thicken the sod.

Some gardeners prefer quite a lot of Clover in their lawns, and it is for these we are offering this seed.

Four ounces, \$.25; per pound, \$.75

Grasses for a Special Purpose, such as Terraces, Tennis Courts, Golf Links, etc.

To get the best results in such places, it is often necessary to have a special mixture of Grasses made up to suit the location.

We are always ready and willing to assist wherever possible in making suggestions or supplying the best seeds for sowing under special conditions.

Two Choice Buddleyas for the Hardy Garden

Buddleya Variabilis Magnifica

A wonderful variety growing about 4 feet high, and producing wonderful spikes of light heliotrope flowers throughout the summer and autumn. The flowers possess a delightful fragrance and are excellent for cutting.

As a specimen on the lawn or for planting in the shrub border it is superb.

Pot-grown Plants Each, \$.35; per dozen, \$3.50

Buddleya Variabilis Superba

A variety resembling to a degree the above but with foliage of a deeper green, the individual flowers are much larger and of a beautiful pinkish lilac.

The blooming season is much longer than that of the above. Each, \$.35; per dozen, \$3.50

NOVELTIES AND SPECIALTIES FOR 1918

We are offering in the following a carefully selected list of the finest European and American Novelties and Specialties for this year. A number of the varieties are offered here for the first time. But, having been carefully tested in our trial grounds, we are positive that any one of these will give entire satisfaction.

Anemone—"St. Brigid"

These beautiful Irish poppy-flowered Anemones produce an abundance of large, single semi-double and double flowers, in many beautiful shades and colors, throughout the garden year.

7930.Pkt., \$.25

Aquilegia—"Mrs. Scott Elliott's Long-Spurred Hybrids"

A renowned English strain that enjoys a world-wide reputation for the choicest flowers, in the greatest possible array of colors. Our seed is from the originator.

8005.Pkt., \$.25

New Aster—"American Beauty"

A magnificent new Aster of the late branching type, producing its enormous rich, deep pink flowers on long heavy stems. The flower is of the exact color of the well-known American Beauty Rose.

550.Pkt., \$.20; 3 pkts., \$.50

New Aster—"Heatherhome Sea-Shell"

A mid-season Aster of a beautiful delicate shell pink, unlike any other variety. The flowers are very large and of a perfect shape, often measuring 5, and even 6, inches across. This is one of the finest varieties ever offered.

350.Pkt., \$.15; 4 pkts., \$.50

Calendula—"Orange Glory"

A new and beautiful variety, with golden-orange flowers twice the size of the common type. Blooms from July to November.

1012.Pkt., \$.15; 4 pkts., \$.50

Cosmos—"Heatherhome's Midsummer Giants"

This improved strain is our exclusive novelty, and is only true if purchased from us. This wonderful Cosmos will flower as early as July; in fact, in many cases, flowers have been picked on the Fourth of July. The plants are very bushy and branch freely from the base, growing to a height of about 4 feet and bear flowers averaging often 4 or 5 inches in diameter. The petals are broad and overlapping. Notwithstanding the fact that the plants begin to flower so early, even in October they are fully as large as the early ones. Start seeds outdoors early in May, and thin out. This season we are offering a new color, a bright crimson, which is distinct from any offered previously.

1705. — Bright Crimson Liberal pkt., \$.25; 5 pkts., \$1.00
 1703. — Pure White Liberal pkt., .15; ¼ oz., .35
 1702. — Lavender Pink Liberal pkt., .15; ¼ oz., .40
 1701. — Apple Blossom Pink Liberal pkt., .15; ¼ oz., .40
 1700. — All Colors Blended Liberal pkt., .10; ¼ oz., .30

Cosmos—"Midsummer Lavender Pink Daisy"

The same as above, except the petals are very narrow, resembling a large, beautiful Lavender Pink Daisy.

1704. Liberal pkt., \$.25; 5 pkts., \$1.00

Delphinium—"Exhibition Mixed"

We have saved the seeds from all the choice-named Delphiniums which we have growing in our Nurseries, and are offering these as the finest blending of Hardy Larkspur ever offered to a discriminating gardening public. This variety is a choice blending and the finest strain possible.

8660.Pkt., \$.25; 5 pkts., \$1.00

New California Iris

Will flower the first year from seed. A new type of Iris, absolutely hardy, giving a profuse display of bloom in many delicate arrangements of colors. Hundreds of flowers are produced in a patch of plants, only a yard or two square. In form of flower, habit and growth that resemble the Spanish Iris. One of the foremost introductions, and we are sure it will prove a delight to all who try it.

8983. — Bracteata. Yellow flowers netted with brown crimson veins, but the seedlings will produce many other colors, including pinks and redsPkt., \$.50
 8984. — Tenax. Flowers vary from deep claret to pale lavender and lilac, and are beautifully veined with silverPkt., \$.25

Pansy "Heatherhome's" Pride

If you wish to enjoy Pansies of infinite perfection in form, coloring and size, we offer you under the above title the choicest product of the universe. We take no liberties with adjectives, but know of no expression more fitting for the grandeur of this magnificent strain. Every flower is a gem; every plant a picture to behold. It is a blending of every imaginable color and combination of colors.

3500. Pkt., \$.25; large pkt., \$.50

Heatherhome's Balcony Petunia

We are fortunate in being able to offer to the American gardening public this new class of Petunias. It is entirely distinct from all other types, and we think one of the most valuable acquisitions of recent years. For planting in porch boxes or vases, or on balconies, they are supreme, and the finest material ever offered for this use. They also lend themselves for bedding. The flowers are very large and all of the colors are very bright and decided.

3775. — Heatherhome's Balcony Pure White. Pkt., \$.25

3780. — Heatherhome's Balcony Rose. Pkt., .25

3785. — Heatherhome's Balcony Carmine. Pkt., .25

3790. — Heatherhome's Balcony Violet. The best color. Pkt., .25

One Packet of Each of the Four Varieties for \$.75

New Petunia—Heatherhome's Glory

3770. A clear, pure, pink Petunia, with flowers much larger than the old "Rosy Morn" variety. The finest bedding Petunia ever introduced. Pkt., \$.25; 5 pkts., \$1.00

Salvia—Ostrich Plume

A distinct new form of flower, very free and abundant blooming, makes this one of the most popular Salvias ever offered. The color is a rich scarlet and the flowers resemble a plume, hence its name. To those who love Salvia, we recommend this novelty as a decided acquisition.

4605. Pkt., \$.15

Heatherhome's New Giant Sunflowers

(Helianthus Annus)

These plants are majestic in growth and their immense flower heads are exceptionally attractive. The choice colors we offer in the following are the finest so far produced and are our exclusive novelty.

2530. — — Chestnut Red. A brilliant color. Pkt., \$.15

2535. — — Dull Rose. A very artistic shade. Pkt., .15

2548. — — Blending of Artistic Shades. Contains many new colors. Pkt., .10

Larkspur—Heatherhome's Fire Flame

The brightest of all annual Larkspur, growing quite tall, with large, double flowers of a brilliant scarlet.

2825. — Pkt., \$.25

Heatherhome's Orchid-Flowering Sweet Peas

We are offering in the following short list the twelve most popular varieties in a special collection as an inducement for those who have never tried our superlative Sweet Peas. Also our Heatherhome's Beauties, a blending much superior to the so-called mixtures. Anyone who has ever sown our Sweet Pea Seeds knows that the quality is supreme. For complete list of named varieties, with descriptions, see Pages 23 to 25.

The Twelve Most Popular Varieties

One Packet of Each for \$1.00 (Value \$1.25)

1 Pkt. Countess Spencer. Delicate silvery pink. \$.10

1 Pkt. Dainty Spencer. White-edged pink.10

1 Pkt. Dobbie's Cream. Finest of all yellows.10

1 Pkt. Florence Nightingale. Soft lavender.10

1 Pkt. Florence Wright. Pure white.15

1 Pkt. George Herbert. Bright rose.10

1 Pkt. Loyalty. Fine blue-flaked variety on white ground. \$.10

1 Pkt. Maud Holmes. Sunproof crimson.10

1 Pkt. Nubian. Large flowers of chocolate color.10

1 Pkt. Tennant Spencer. Violet mauve.10

1 Pkt. Thomas Stevenson. Orange scarlet.10

1 Pkt. Wedgewood. Wedgewood blue.10

5000. — Heatherhome Beauties. We offer under this title the finest blending of the newer forms of Sweet Peas ever offered. Not being content with the so-called "Mixed Sweet Peas" we have had grown to our order a large number of named varieties of Orchid Flowering Sweet Peas. These have all been re-selected and blended to make up our Heatherhome Beauties.

Pkt. (75 seeds), \$.10; oz., \$.25; 4 ozs., \$.85; lb., \$3.00

GENERAL LIST OF ANNUAL FLOWERS

Everybody's flower is the right title for these. They are like the fleeting visitor—here to-day, gone to-morrow. Their class name is derived from the fact that they complete their life the year they are sown. Some are called "Hardy Annuals" because they will succeed easily and complete their life even though they may not be sown until May and then out of doors. When a flower is called "Half-Hardy Annual" it should be understood that the seed requires starting early, either in a hotbed out of doors or in boxes indoors. "Tender Perennials" should receive the same treatment as "Half-Hardy Annuals."

To Avoid Errors and to Facilitate Ordering Please Order by Numbers

Abutilon Heatherhome Giants (Flowering Maple)

A very effective plant of strong growth and easy cultivation. Considered indispensable for flowering indoors during the winter and spring, and in the garden during the summer.

Seed should be sown indoors during March or early April, and the young plants should not be planted out until all danger of frost is past.

The strain we offer is an improved one, and the graceful bell-shaped flowers appear in colors of pink, scarlet, white, yellow and orange.

25. — Pkt., \$.15

Ageratum (Floss Flower)

A very popular bedding plant, being solidly covered with fine, feathery flowers, creating a carpet effect in the garden. The foliage is dense, but is hardly seen when the plant is in bloom. All flowers should be carefully removed before going to seed, for otherwise the total effect would be much marred by the brown seed tops. The shades of bluish-lavender one finds among these plants are better than usual. Being a half-hardy annual the seed should be sown from January until April, either in the house or in the hotbed, or may be sown outdoors in May. If sown outdoors the flowers will appear quite late. A sowing in September will give plants to bloom all winter.

The dwarf varieties are excellent for edging or carpet bedding, the taller ones are splendid for cutting.

50. — Tall Lavender Blue. Height, 2 feet; a shade of sky blue..... Pkt., \$.10

60. — Dwarf Lavender Blue. Height, 10 inches; compact and bushy, splendid for bedding.. Pkt., .10

65. — Dwarf White Pkt., .10

70. — Little Dorrit Blue. Exceedingly dwarf growing. But 6 inches high, and having small, dark bluish-lavender flowers, which literally cover the plant all summer..... Pkt., \$.10

80. — Little Blue Star. Dwarfest of all. Growing but 4 inches tall, with mauve blue flowers. Splendid for edging beds..... Pkt., \$.25

85. — Dwarf Salmon Queen. A new color—a lovely shade of delicate salmon pink. The plants are dwarf, 8 inches high, with large individual flowers Pkt., \$.25

Alonsoa Warscewiczii (Mask Flower)

A dainty, graceful little edging plant growing about twelve inches high and throwing up slender flower spikes of a bright orange scarlet.

This little plant can be used excellently when artistic effects are desired. If you sow a border of Sweet Alyssum and set a plant of Alonsoa every two feet between the other, you will have a very dainty effect. Try it, or sow a whole border of it directly behind the Alyssum.

95. — Pkt., \$.15

Sweet Alyssum

Every beginner includes this popular flower in his first selection, and it is good that he does, for it seldom fails. It requires least care of all, will flourish in all kinds of soil, may be sown where it is wanted, will flower within six weeks after sowing, and remain in bloom until frost. Its sweet fragrance commends it to all. For edges of beds, or for vases; indeed, for all kinds of spaces in the garden, it is a gem. Rockeries depend on it for color effect at certain seasons of the year. For the same reason it is frequently used in hardy borders to cover the spots where Darwin Tulips flowered previously. As a ground cover for beds of Gladiolus, it is stunning in effect. It is advisable to purchase Sweet Alyssum Seed by the ounce or pound and apply it to every dull spot in the garden. Sow seeds sparingly to avoid the extra work of thinning out the young plants.

100. — Benthani. What is known as the tall-growing Sweet Alyssum attains a height of 12 to 15 inches and has a tendency to fall over, hence it covers a larger space and is particularly well adapted for vases and hanging baskets, but fully as popular for edging walks or flower beds. Pkt., \$.05; oz., \$.30

110. — Carpets of Snow. The best variety for edging beds, as the plants grow very erect and only 4 inches high. The plants begin to bloom when quite young and are a complete mass of snowy-white blossoms from the earliest summer until the last days of autumn. Pkt., \$.10; oz., \$.50

115. — Lavender Gem. Delicate lavender flowers. The plants are of dwarf, compact, upright growth Pkt., \$.10

117. — Primrose Gem. Pale, primrose yellow, dwarf and compact..... Pkt., .15

118. — Violet (New). A shade far more intense than "Lavender Gem" and really a great acquisition Pkt., \$.25

SEEDS OF ANNUALS

HEATHERHOME'S FAMOUS SNAPDRAGONS

(Antirrhinum)

A half-hardy perennial. Seeds should be sown either in the house from February on or in hotbeds from March onward. Snapdragons belong to the aristocrats of the garden. They appear in the most pleasing shades; are extremely stately in appearance, and useful in unlimited degree, being applied both for bedding and cutting purposes. The pretty flowers, which completely encircle the stout stem to fully a foot to 18 inches at the top, are very large and flower continuously from July until frost.

If you want to grow finer spikes of flowers, you must not allow the plants to produce them until they are strong and robust enough, and in order to make them robust simply pinch off all growth which might flower for the first month they show. In this way the plant will form a strong base from which afterwards the best spikes are produced. Allow 9 inches of space between the plants.

Antirrhinums will not always come 100 per cent. true from seed, but every effort is being made so that our varieties will be as near true as possible.

140. — **Heatherhome's Pink Beauty.** (Will average 95 per cent. true.) Our own introduction. The tall bold spike is well-dressed with large delicate salmon pink flowers with a pure white throat Pkt., \$.25

Heatherhome's Giant Large Flowering Varieties

Height About 3 Feet

143. — **Phelps White.** Purest white. Splendid for garden or conservatory..... Pkt., \$.15
 145. — **Glowing Crimson.** Excellent color..... Pkt., .10
 149. — **Orange Glory.** A very effective orange..... Pkt., .15
 150. — **Snow-white.**..... Pkt., .10
 155. — **Canary (R Pale Lemon Yellow)**..... Pkt., .10
 160. — **Brilliant Fiery Crimson.**..... Pkt., .10
 180. — **Bright Rose Pink.**..... Pkt., .15
 190. — **All Shades Blended.**..... Pkt., .10

Heatherhome's Semi-Dwarf Large Flowering Varieties

Height About 18 Inches

This type is splendid for massing in the garden.

192. — **Pink Gem.** Clear rose pink. A dwarf variety, height 12 inches..... Pkt., \$.15
 194. — **Captivation.** Rich chamois, shaded pink. A gem..... Pkt., .15
 197. — **Electra.** Beautiful salmon maize and orange. Distinct..... Pkt., .15
 198. — **Nelrose.** Delicate pink. The exact shade of the rose "Hermosa." Splendid for garden or conservatory Pkt., \$.25
 201. — **Golden Beauty.** Rich golden yellow..... Pkt., .15
 203. — **The Fawn.** Terra-cotta pink and pale yellow, very pleasing shade. Extra large flowers. Pkt., \$.10
 204. — **Bonnie Lass.** A delicate rose pink with white throat..... Pkt., .10
 207. — **Fascination.** Deep flesh pink..... Pkt., .10
 214. — **Dark Crimson.** A desirable shade..... Pkt., .10
 217. — **Cherry White and Pink.** A striking variety Pkt., .10
 225. — **Brilliant Scarlet** Pkt., .10
 228. — **Deep Giant Mauve.** A pale clear mauve Pkt., .20
 230. — **Snow-white**..... Pkt., .10
 240. — **All Shades Blended.**..... Pkt., .10

Heatherhome's Annual Anchusa

(Summer For-Get-Me-Not)

Resembling in form its perennial brother, this is one of the most popular blue annuals. Plants attain a height of about 18 inches and will bloom in July from seed sown in April. Space, 1 foot.

135. Pkt., \$.10

Arctotis Grandis (African Daisy)

A splendid annual for cutting or garden effect, growing from 15 inches to 2 feet high, and bearing its attractive flowers on long graceful stems.

The daisy-like flowers of porcelain white blends beautifully with the foliage which is of a bluish green.

Seeds may be sown in this hotbed in March or in the open ground in May. Set plants 6 inches apart.

300. — — Pkt., \$.10

Anagallis Grandiflora (Pimpernell)

If you love dainty flowers, this should be in your collection, for it is a gem. The plants grow only 6 inches high, but are literally covered all summer with dainty flowers of pink, scarlet and blue.

133. — All Colors Blended.....Pkt., \$.10

Artemisia Sacrorum Viridis (The Annual Pine Tree)

From a single seed sown in May there is visible in our gardens in August a specimen of a tree-like plant, standing 6 or more feet high, which has all the appearance of a Norway Pine. The plant is pyramidal in growth, of fine needle-like deep green foliage, and branches are extending from the bottom like a spruce. For hedges or background of dwarfier flowers, or for single specimen, we have here a remarkable plant worthy of trial. The cut branches are excellent for decorations.

320.Pkt., \$.10

HEATHERHOME'S ASTERS**"The Chrysanthemum of the Summer"**

There are some garden flowers whose effect when in bloom borders on the spectacular. When we think of Asters we see a glorious blaze of color in the garden, and at once we think of the early fall, for that is the season of the Asters. But not only are they effective garden plants, they are one of the most lasting cut-flowers. A new bed or location should be selected each year, and one should return to the same soil only once in three years.

There are entirely too many forms and types offered in the seed books of today, and, to our mind, an intelligent selection by a non-professional gardener is simply impossible. We believe that we solve the problem by limiting our list to those that we offer here, because they, in our opinion, comprise all the Asters worth growing. We offer the best, and these only. Asters, in order to come early into bloom, should either be sown in the house in early March or in the hotbed during April. The writer has grown some beautiful Asters from seeds sown out of doors as late as June 5. The flowers appeared in September, a little later than the ones started in the house, and in consequence made the season longer. For a continuous blooming Aster season, it is suggested to sow seeds of the early midseason, and late Asters at every instance a sowing is made first in the house, then in the hotbed, and finally out of doors. Asters love food, and pulverized sheep manure is the one food they like most.

Aster Heatherhome's Sea Shell

350. — For description, see Page 3.....Pkt., \$.15

New "Art" Asters**The True Pastelle Shades**

We are proud to be the exclusive distributor of this novelty, which is of "American" origin. In form, this type is the equal of the largest and most perfect "ostrich feather," but its true originality lies in the coloring of the flowers. Every shade hitherto known exists in this class, but each has a sheen of copper drawn over the original color, creating a most artistic effect, which can only be described with the word "Pastelle." You must see these flowers to appreciate their true beauty. This, no doubt, will be the forerunner of more artistic shadings in flowers.

360. —Pkt., \$.25; 5 pkts., \$1.00

"New Single Aster"**Mauve Beauty**

A distinct new single Aster. The flowers are very large and with good wide petals. Color is rich and very artistic. It is both effective in the garden and splendid for cutting.

730.Pkt., \$.15

Aster Daybreak

Plants branch freely from the base and grow very erect to a height of 15 inches, and produce perfect flowers with petals, which are narrow, sometimes fluted, but all sharply pointed and which give the flower a unique appearance. On account of the compactness of the plants they are extremely effective when massed in the garden, and showing stiff stems they are valuable for cutting.

630. — Light Shell Pink.....Pkt., \$.10	638. — Salmon PinkPkt., \$.10
632. — Delicate LavenderPkt., .10	640. — Pure WhitePkt., .10

637. — Deep Rose Pink.....Pkt., .10	

Large Packet of Any of the Above, \$.25

SEEDS OF ANNUALS

Aster—Early Flowering

These Asters, if started early, can be had in bloom early in July and supply a valuable cut bloom early in the season. The flowers of this strain are fairly large, rather flat in form, and are produced on stems about 10 to 12 inches tall. The plants flower freely, and if allowed to bloom undisturbed make a veritable mass of color in the garden. Allow 6 inches of space in planting.

400. — White	Pkt., \$.10	415. — Brilliant Pink	Pkt., \$.10
405. — Peach Blossom Pink.....	Pkt., .10	420. — Dark Blue	Pkt., .10
410. — Clear Sky Blue.....	Pkt., .10	425. — All Shades Blended.....	Pkt., .10

Large Packet of Any of the Above, \$.25

Aster Midsummer Branching

A most beautiful form of flower, resembling the Paeony in its globular shape. Flowers are exceptionally large, and are produced freely on stems 18 inches long. Its flowering season is August, thus connecting the early flowering sorts with the later, and making an uninterrupted flowering Aster season. As the plants branch freely they should be given 9 inches of space.

450. — White	Pkt., \$.10	470. — Shell Pink	Pkt., \$.10
455. — Light Rose Pink.....	Pkt., .10	472. — Fiery Crimson	Pkt., .10

Astermum

The largest of all Asters. The gigantic flowers are especially full and deep in form and are borne on stout, erect stems 2 feet in length. This is a midsummer Aster.

650. — White	Pkt., \$.15; large pkt., \$.50
655. — Rose Pink	Pkt., .15; large pkt., .50
660. — Dark Lavender	Pkt., .15; large pkt., .50

Aster Single Elegance

The single Aster was the original Aster from China. When the double forms were introduced the originals were cast aside and soon totally forgotten, until recently they were resurrected by a lover of single flowers. With patience and skill this amateur hybridizer soon evolved from the crude original a most elegant and refined flower. Instead of the coarse straight, broad petal, we have in "Elegance" a narrow, long, gracefully curving petal and a small yellow disc. In consequence, a most desirable flower, particularly for cutting and artistic house decorations. It is the flower for the artist. It is extremely free blooming and most effective in the border.

700. — — — White	Pkt., \$.10; large pkt., \$.25
705. — — — Delicate Pink	Pkt., .10; large pkt., .25
715. — — — All Shades Blended.....	Pkt., .10; large pkt., .25

Balsam (Lady Slipper)

Easy growing, hardy annuals of quick growth. Sown out of doors in May, they are in full bloom in July. They should have fully 2 feet of space. A very stout, fleshy stalk, growing 18 inches high, branches freely from the base, and from each leaf axle emanate a number of extra double camelia-shaped blooms, which average 2 inches in diameter. As the foliage is quite dense, many of the flowers are hidden by it, and it is suggested, where it does not involve too much labor, to remove the leaves, so as to show the full grandeur of the blooms.

Large Packet of Any of the Above, \$.25

BEDDING BEGONIAS

The seeds of all of these subjects must be sown in a hothouse, and grown up to sturdy plants before they are planted out in the garden late in May.

Heatherhome's Begonia Erfordi "Southampton Perfection"

905. — Our own wonderful improved strain. Extra large flowers, for this class, of a real peach blossom pink.....Pkt., \$.50; 5 pkts., \$2.00

Tuberous-Rooted Begonias

A fleshy stout stalk, grows 12 to 15 inches high, having fleshy deep green leaves, with red or light green ribs. The leaves are quite large in proportion to the size of the plants. The buds of the flower are not unlike a closed shell, and when opened measure often 8 inches and over and show gigantic petals. Plants should be set 12 inches apart. Excellent for greenhouse decoration or for summer bedding.

| 840. — — — Double Flowers. All Shades Blended..... | Pkt., 1.00 |

Small Flowered Begonias

(Fibrous-Rooted)

A continuous-flowering section of Begonias of the best type for bedding, being in our minds one of the finest bedding plants known. The flowers, though small, are of brilliant colors and borne in the greatest profusion from summer to autumn.

Plants succeed equally well in sun or shade. Allow 8 inches of space for each plant.

| 1020. — Blending of All Existing Shades..... | Pkt., .05 |

SEEDS OF ANNUALS

Calliopsis (Coreopsis)

Hardy annuals of easiest possible culture and of a graceful, airy habit of growth. Plants grow to a height of 2 feet, are bushy in form and have fine, wiry swinging flower-stems, which branch tree-like and are crowned with open large flower-heads, composed of medium-size single daisy-like flowers. The entire crown of the plant is one sheet of color. Seeds are best sown out of doors during the month of May, and the young plants should be set at least 12 inches apart, to give them room for perfect development.

1060. — Pure Golden Yellow (R Empire Yellow-golden Sheen).....Pkt., \$.05
 1065. — Golden Yellow with Chestnut Red Eye.....Pkt., .05
 1075. — All Existing Shades Blended.....Pkt., .05

Candytuff (Iberis)

Very popular dwarf-growing annual, valued as an edging plant, as well as for cutting. They resemble Sweet Alyssum in a degree, but the plants as well as the flowers grow more open and larger.

1100. — Heatherhome's Giant White. A wonderful improved strain having large flower spikes of spiral form, completely encircled with large glistening white flowers..Oz., \$.60; pkt., \$.10
 1110. — Lavender.....Oz., .30; pkt., .05

 1120. — Deep PinkOz., .30; pkt., .10
 1125. — Blending of Beautiful Shades.....Oz., .25; pkt., .05

Cannabis Gigantea (Giant Hemp)

A splendid plant for a quick-growing tall hedge or background.

By August 15, the stout-stemmed, well-branched plant has attained a height of from 8 to 10 feet. Its attractiveness is its hand-like foliage, namely, five narrow, spreading leaflets from one leaf. During August from each leaf axle appear long sprays of a greenish white, which appear like drooping plumes.

1080. —Pkt., \$.10; 3 pkts., \$.25

Marguerite Carnation

While in size and fragrance it is equal to the winter flowering florist's Carnation, this can readily be grown from seed to flower continuously from July until frost the first season. Seeds should be started in a hotbed during March and April, and plants should be given a foot of space. The foliage is grass-like, and the flower stems attain a height of 15 inches. Splendid for cutting.

1175. — All Shades Blended.....Pkt., \$.10; 3 pkts., \$.25

Annual Chrysanthemum

This title is rather misleading, since as for the appearance of these flowers, they have no resemblance to what is popularly known as the Chrysanthemum, except the variety No. 1450. All other are plants that grow about 2 feet high, with straight, erect fleshy stems, and very fine lacerated foliage. Each stem bears several flowers, which have all the appearance of a large single daisy. The colorings of the flowers are very attractive, and as the plants remain in bloom all summer, they are splendid material for either garden or cutting. Seeds may be sown either in hotbeds during March or out of doors during May.

1450. — Queen of Tokio (New). This is, in our opinion, one of the most important introductions of the present age. The plant grows to a height of about 3 feet and is perfectly globular in shape, being covered with hundreds of single flowers in every imaginable shade except blue. The form of the petals will vary as much as the shades of the flowers, and in all we consider this one of the wonders of the present time.....Pkt., \$.50
 1460. — — Golden YellowPkt., .05

For a complete list of "Hardy Chrysanthemums," see Page 44.

Hybrid Coleus

Much valued as a showy tropical bedding plant, on account of its highly colored foliage. Seeds should be started indoors. Space, 8 to 15 inches.

1625. — — Large Leaved. Solid colors as well as bizarre effects.....Pkt., \$.25

CELOSIA**Chinese Woolflower (*Celosia Childsii*)**

A type of *Celosia plumosa* with large globular heads of a rich bright red. Grows 2 to 3 feet high and very free branching, with each branch terminating in a large flower head.

1240. —Pkt., \$.20; 3 pkts., \$.50

***Celosia Plumosa* (Feathered Cockscomb)**

A superior type, forming pyramidal branching plants, 3½ feet high and bearing fluffy feather-like flower heads, much like the choicest ostrich feather.

Seeds should be started in the hotbed in March or outdoors in May.

1235. — — **Pride of Castle Gould.** Unique bushy heads of many choice shades.

Pkt., \$.15; 4 pkts., \$.50

1225. — — **Many Beautiful Shades Blended**.....Pkt., .10; 3 pkts., .25

***Celosia Cristata* (Crested Cockscomb)**

Very popular form of easy culture, producing a solid crested upright flower.

1280. — — **All Shades Blended**.....Pkt., \$.10; 3 pkts., \$.25

CENTAUREA (Cornflower, or Bachelor Buttons)

Extremely popular annual requiring little or no care, and flowering within 8 weeks from the date of sowing. Its free and uninterrupted flowering habit, its tendency to branch freely, and its value as a cut-flower as well as a garden decoration, is responsible in a great measure for its popularity.

Centaurea Cyanus

The old-fashioned Cornflower. Splendid for cutting. Height, 2 feet; space, 6 inches.

1300. — — **Emperor William.** A distinct, clear shade of deep blue.....Pkt., \$.10; 3 pkts., \$.25

1405. — **Candidissima** (Dusty Miller). This type is grown for foliage principally and is excellent for edging, as it grows only one foot high.....Pkt., \$.10

Clarkia

One of the best and freest blooming of the hardy annuals. Their bright colors and long blooming season make them valuable for edgings or in vases.

Seeds should be sown outdoors in early May and grown in partial shade.

The plants will bloom continuously from midsummer till frost. Average height, 18 inches.

1550. — **Double Deep Purple**.....Pkt., \$.10 1565. — — **Crimson**Pkt., \$.10

1560. — — **White**Pkt., .10 1575. — — **All Shades Blended**....Pkt., .10

SEEDS OF ANNUALS

Cleome Pungens

(Giant Spider Plant)

A spectacular and interesting flower growing fully 5 feet high, and flowering profusely for months. The interesting rose pink flowers are borne in a cluster, and as this cluster continuously produces new flowers and the old ones go to seed, forming long, narrow pods often 2 inches long, the effect is most interesting.

COSMOS

Heatherhome's Midsummer Giants

Flowers as early as July and blooms profusely until frost.

The most wonderful Cosmos of to-day—the acme of perfection.

The bushy plants, which branch freely from the base, grow to a height of 4 feet, bearing, beginning with early July, flowers which average fully 4 inches, many reaching the extraordinary dimensions of 5 inches and more. The flowers are composed of overlapping, large broad petals only, never before attained in *Cosmos*. Notwithstanding the fact that the plants begin to flower so early, the flowers, even of October, are just as large as the early ones. Seeds must never be allowed to form, but cut, cut, and cut again, and the more you cut the freer it will bloom, for it is an inexhaustible producer. Seeds do not require to be started in the house or hotbed, but sown out of doors in early May, and thinned out will produce flowers within eight weeks from the day of germinating. Allow 3 feet of space for each plant.

The flowers of this new *Cosmos* appear in several additional shades that have never been known before, such as apple blossom pink, flesh pink, orange pink; in fact, in almost every shade of pink, and in glistening white. This season we are offering a crimson for the first time. We can assure prospective purchasers an even blending of all shades even in a single packet.

Cosmos Late-Flowering Giants

The well-known Cosmos growing 6 feet or more high, growing tree-like with numerous upright branches which produce large flowers in October.

Even though they are late and often killed by frost while they are just in their prime, they are worth growing, for they are like "the last rose of the summer," and brighten the garden before its final slumber.

Cosmos Double Flowering Giants

One of the most valuable acquisitions of recent years. The foliage is heavier than the other types, and also less cut. The flowers appear in both semi-double and double.

1760. — White Pkt., \$.15 1707. — Pink Pkt. \$.15

Dahlias

By sowing the seeds in the open in May or indoors in March, one may have a wonderful abundance of Dahlias the first year. This fact is strange to many amateurs and the experiment is well worth trying, as the results are always greater than the anticipation. Dahlias will not come true from seed but will flower in numberless interesting colors and types.

Our seed is very carefully selected.

Dianthus Heddewigii (Japanese Pinks)

A wonderful change in the appearance of this flower has been brought about through the persistency of hybridizers. The old form, which is still offered by other houses, is insignificant by the side of our varieties listed here. New forms, larger flowers, longer stems bring this class of flowers now into prominence, and for small bowls and vases in the house, or toward the front of the borders in the garden, there is no better material available. Sow the seed out in the garden in May, thin out the young plants to stand 6 inches apart, and keep the weeds from choking them. Our selection is the most up to date, comprising every desirable color and form. Plants bloom the entire summer. Height, 12 inches.

Diascia Barbarae

A dainty graceful little annual, which branches freely from the base, and sends up every so many fine hair-like stems, dressed with tiny foliage and lovely spurred cups of coral pink. It is a gem and you will like it.

1960. —Pkt., \$.25; large pkt., \$.50

Dimorphotheca (African Orange Daisy)

Rather dwarf in growth (12 to 15 inches high), the foliage remains nestled to the ground, while the innumerable flower-stems appear continuously all summer. Thin and wiry, they hold erect a daisy-like flower, with very narrow, long petals, which curve upward, thereby giving the flower a most interesting appearance. The color, a deep golden orange, more like the flesh of a deep orange cantelope, is most unique, and is marked by a darker zone around an inconspicuous disc. Seeds can be sown out of doors, as it flowers very quickly and remains a blaze of bloom until frost. It delights in sunny situations.

Euphorbia (Mexican Fire Plant)

A very showy foliage plant, growing from 2 to 3 feet high and fully 18 inches through. The smooth, fleshy main stem branches freely from the bottom, producing numerous side shoots, which are dressed with foliage similar to Japanese Euonymus in size, form and color. From July on the leaves become tipped with bright scarlet, while the leaves near the crown become bright scarlet throughout. The effect is as if the plant were on fire. Seeds are best sown out of doors about May 15. Give 18 inches of space.

SEEDS OF ANNUALS

Erysimum Arkansanum

A splendid free-flowering annual of bright color, and neat habit, growing to a height of from 24 to 30 inches and flowering from June till frost.

The plant reminds one somewhat of the Yellow Wallflower.

2075.Pkt., \$.10

Feverfew (Matricaria)

A splendid bedding plant and equally valuable as a cut flower. Plants grow 18 inches high and occupy about 8 inches of space. From the main stem emanate a number of slender stalks, which on their terminals produce several double aster-like flowers about one inch in diameter. The foliage is like Pyrethrum, profuse, and clothes the stem to the very top. This is a tender perennial, and seeds, therefore, should be sown either in the house or hotbed from March until April.

2200. — Double WhitePkt., \$.10; 3 pkts., \$.25

Gaillardia (Blanket Flower)

Do not confuse this with the perennial variety which we offer under the proper heading. This type is an annual of easy culture, producing from spring until late fall a profusion of bright-colored flowers. Plants grow about 18 inches high.

2250. — Deep Blood Red. Self-colored flowers.Pkt., \$.05

2255. — All Combinations of Colors.Pkt., .05

2275. — Lorenziana. Double. A blending of beautiful shades on each individual bloom. Pkt., .05

2280. — — The Bride (New). Very double flowers of creamy white. Long stems for cutting. Pkt., \$.15

2290. — — Salmon Pink (New)Pkt., .25

Gaura Lindheimeri

A graceful and spectacular plant which, under careful treatment, will reach a height of from 5 to 6 feet and will be covered with spikes of white flowers from July till frost.

2292.Pkt., \$.10

Globe Amaranth (Bachelor Buttons)

Splendid for edgings or for cutting. The plants grow into a perfect globe 8 to 10 inches high and produce their clover-like flower heads on stems about 6 inches long. Sow out of doors in May.

2400. — — Flesh PinkPkt., \$.05 2410. — — PurplePkt., \$.05

2405. — — WhitePkt., .05 2413. — — Blending of All Shades.. Pkt., .05

Godetia

A very showy annual growing to a height of about one foot. Compact in growth and flowering freely in colors and shades that glisten in the sunlight like satin.

2415. — Blending of Artistic ShadesPkt., \$.10

Golden Feather (Pyrethrum Aureum)

An edging plant, grown especially for its golden foliage and its compact, close form. It attains a height of 8 inches, and the feathery foliage covers the ground completely. Seeds must be sown in February in the house, or in March in the hotbed. Tender perennial. Space, 6 inches.

2425.Pkt., \$.05

Gypsophila (Baby's Breath)

Very free blooming dwarf branching plants of quick growth, and easy culture. The star-like flowers are borne in feathery sprays and are used principally to give a graceful effect to bouquets.

When used with Sweet Peas or Roses the effect is wonderful.

2450. — Snowdrift. The most effective and freest bloomer in snowy white... Oz., \$.25; pkt., \$.10

2455. — Deep Pink Oz., .30; pkt., .10

Heatherhome's New Helianthus Yellow Gem

An interesting combination of Sunflower and Chrysanthemum. A private grower made the experiment of crossing these two flowers and we were fortunate in securing the entire stock of seed.

It grows about 4 feet high and in habit of growth resembles the hardy Chrysanthemum. It is very free flowering the plant resembles the cultivated Chrysanthemum and the flower is a true Sunflower yellow. The seed is very scarce.

2520. Pkt., \$.25

Helianthus Cucumerifolius (Miniature Sunflowers)

Very useful hardy annual, both for garden effect or for cutting. The plants have rather small, glossy foliage, branch freely into a bushy plant, 3 to 4 feet high, and flower profusely from July until frost on long, individual stems. The single flowers average about 3 inches in diameter and appear in several shades of yellow. Seeds should be sown out of doors in May and young plants can be transplanted to stand 12 inches apart.

2502. — — Flesh Pink. A delicate and pleasing color Pkt., \$.25

Hunnemannia Fumariaefolia

A very showy hardy annual with large, golden yellow flowers and feathery, glaucous foliage. Height, 18 to 24 inches. Sow seed outdoors in May. Flowers during September and October.

2650. — Pkt., \$.10

Ice Plant (Mesembryanthemum)

A most unique creeping plant. Excellent for rockeries or hanging baskets. The entire plant is covered with fleshy needles of a light green resembling an icicle, hence the name. Start seeds in the house or hotbed in February or March.

2700. — Crystal-Leaved..... Pkt., \$.10

SEEDS OF ANNUALS

Heatherhome's Inula Golden Beauty

A new and distinct variety of a little known but valuable plant. Grows to a height of about 2 feet with clear golden yellow flowers measuring fully 4 inches across.

2725. Pkt., \$.15

Kochia Trichophila (Burning Bush, or Summer Cypress)

A most remarkable annual which in two months will grow to a perfect oblong globe $3\frac{1}{2}$ to 4 feet high. The foliage of deep green changes to a bright pink and in September to a vivid crimson. Seeds may be started in the house in March or outdoors in May.

2750. Pkt., \$.10

Annual Larkspur

A very handsome and showy flower which must not be confused with its hardy sister, the "Delphinium." Plants have fern-like foliage deeply cut into fine linear segments and attain a height of 2 feet. The spreading branches are completely encircled with rosette-shaped double flowers. Splendid for garden effect and cutting. The seeds may be sown out of doors in May, and transplanted later to where they are wanted to stand 12 inches apart. For succession of bloom make several sowings.

Pkt., \$.10

2825. — — Heatherhome's Fireflame. The brightest of all annual Larkspurs, growing quite tall with large double flowers of a brilliant scarlet.

Pkt., \$.25

Lavatera Splendens (Annual Mallow)

An annual growing to a height of 3 feet and succeeding regardless of conditions. They are excellent for cutting or garden planting, where quick effects are desired. Seeds may be sown in May but the plants must not be transplanted. Blooms from July until September.

2850. — — Pink Pkt., \$.10

2855. — — White Pkt., .10

2860. — — Sunset. A new dwarf variety of a rich bright, deep rose pink. Height, 2 to $2\frac{1}{2}$ feet. Pkt., \$.15

Leptosyne Stillmanni (Yellow Summer Cosmos)

A plant resembling the Cosmos to a great extent. The golden yellow flowers are fully 3 inches across and appear from August until frost. Seed should be started in the house or hotbed in March. Allow 2 feet of space to each plant.

2865. Pkt., \$.15

Lobelia

A plant used extensively for edging borders, or for carpet effects. The dwarf compact sorts grow to a perfect little globe, 4 inches high, and are completely covered with their brightly colored flowers. In addition to the compact growing varieties there are several sorts having long pendulous branches, this type is best used for hanging baskets or window boxes. Sow seeds indoors from January to March.

2875. — Crystal Palace Compacta. Dwarf compact sort with deep blue flowers Pkt., \$.15

2880. — Goldelse. Yellow foliage and dark blue flowers Pkt., .15

The above varieties are for bedding; the following are for trailing:

2895. — Erinus Gracilis. An exquisite shade of blue Pkt., .10

2905. — Sapphire. A variety having drooping branches, 12 to 18 inches long, covered with beautiful large lavender flowers Pkt., \$.30

Annual Lupins

In six weeks from the date of sowing, this annual will be in full bloom. They resemble Snapdragons to a degree, in appearance, and can be used for exactly the same purpose. Sow seeds outdoors in May in the bed they are wanted for. The blooming season lasts about 4 weeks only, for a succession of bloom make a sowing about every 10 days.

2925. — Deep Violet Pkt., \$.05

2930. — White Pkt., .05

2935. — Porcelain Blue Pkt., .05

2940. — Delicate Pink Pkt., \$.05

2945. — Sulphur Yellow (New).... Pkt., .10

2950. — All Shades Blended..... Pkt., .05

Linum Grandiflorum Rubrum (Annual Red Flax)

An elegant, free flowering hardy annual of graceful habit of growth, dainty, waving flower stems with blooms of the brightest scarlet. Excellent for edging. Height, 12 inches.

2870.Pkt., \$.10

Tall African Marigold

One of the most effective annuals for the fall. Succeeding under all sorts of conditions they are justly popular.

The African type will reach a height of fully 2½ feet, and are very free branching. Allow 18 inches of space to each plant. Sow seeds outdoors in May and transplant later.

3000. — — — Deep Golden Orange.....Pkt., \$.10

3010. — — — Clear Lemon Yellow.....Pkt., .10

3020. — — — All Shades Blended.....Pkt., .10

Dwarf French Marigolds

This type differs from the former in that they grow to a height of 12 to 15 inches only, and have flat flowers with a velvety sheen.

3030. — — — Pure Golden Gigantic Flowers.....Pkt., \$.10

3035. — — — Chocolate Red—Globe Shaped.....Pkt., .05

3040. — — — Little Brownie. Select-strain with deep yellow and red combined.....Pkt., .10

3045. — — — All Shades Blended.....Pkt., .05

Marvel of Peru (Four-O'Clock)

A popular garden plant growing to a height of 2½ feet and spreading to a perfect tree-shaped bush 18 inches through, completely covered with bright-colored Morning-glory-like blossoms. Seeds may be sown outdoors in May.

3075. — — —Pkt., \$.05

Mathiola Bicornis (Evening Stock)

A bushy well-branched plant, growing 12 inches high, covered with small single lavender pink stock blossoms.

Valuable mainly on account of the delightful fragrance exhaled in the evening. Sow seed in hotbeds in March or outdoors in May.

3080. — —Pkt., \$.10; 3 pkts., \$.25

Mignonette

The sweet Mignonette is one of the flowers which has endeared itself to every one who ever grew flowers. It is used principally for cutting. Sow seeds outdoors in May.

3100. — Heatherhome Giants. The largest of all Mignonettes. Spikes attain a height of 18 inches and are massive with flowers of greenish white, sweetly perfumed..Pkt., \$.50; 3 pkts., \$1.00

3105. — Red Giant. Flowers of reddish hue with spikes 15 inches tall.....Pkt., .15

3115. — Old-Fashioned Sweet. Most fragrant of allOz., \$.25; pkt., .05

Nemesia Strumosa Compacta

A compact, low-growing plant growing to a height of about 6 inches and covered with exquisitely formed flowers of clear bright colors. Valuable for edgings. Sow seed in hotbeds in March or outdoors in May for late flowering.

3330. — Pure WhitePkt., \$.15

3332. — Light YellowPkt., .15

3334. — OrangePkt., .15

3335. — Lobelia BluePkt., .25

3338. — PinkPkt., \$.15

3340. — CrimsonPkt., .25

3345. — All Shades Blended.....Pkt., .10

Nigella (Love of the Mist)

An interesting little hardy annual with fine cut foliage growing about 18 inches high, and having double rosette-like flowers in great abundance on long stems. Sow seeds outdoors in May.

3400. — Miss Jekyll. A beautiful Cornflower bluePkt., \$.10

3405. — Miss Jekyll White. A pure white variety of the foregoing.....Pkt., .30

HEATHERHOME'S NASTURTIIUMS

Next to the Sweet Pea, no flower enjoys more popularity than the Nasturtium, and there are good reasons for it. It blooms from the moment the plant is strong enough until the last of life in the garden. The taller sorts may be used for climbing over stonework, or on trellis, or to shade porches and verandas. The dwarfs are excellent for bedding and edging. Seeds can be sown in the garden in April, and in June flowers are ready for use. Our seeds are grown in the cool regions of England and are saved from well-colored flowers of good form and size.

Tall Nasturtiums

These have the usual large light green leaves, and are of climbing habit. Will grow fully 15 feet high if necessary support is provided. "Heatherhome Quality" is especially prevalent in this class.

3200. — **Heatherhome Blending.** Our blending contains only pleasing shades and solid colors, and it is blended from the choicest named varieties, ever so many more than we list in our book. The quality is superb and will give perfect satisfaction to those who try it.

HEATHERHOME'S PANSIES

Professional growers recognize the Pansy as a biennial only, and cultivate it from this standpoint alone, sowing the seeds in frames during July and wintering the young plants in the same frames with sashes, as protection.

Such plants are ready to bloom the following April, and will continue to bloom all season. But with the non-professional grower they are considered an annual and treated as such. Seeds may then be sown in a hotbed in March or out of doors in April. If the latter method is adopted, choose a semi-shady spot and one which is fairly cool. When large enough the seedlings may be transplanted to stand 6 inches apart, and treated thus they will come into bloom in July and are at their best during the fall.

Pansies delight in semi-shaped, cool locations, and they must be kept supplied with moisture during the hot months of the year.

Pansy "Heatherhome's" Pride

If you wish to enjoy Pansies of infinite perfection in form, coloring and size, we offer you under the above title the choicest product of the universe. We take no liberties with adjectives, but know of no expression more fitting for the grandeur of this magnificent strain. Every flower is a gem; every plant a picture to behold. It is a blending of every imaginable color and combination of colors.

3500. Pkt., \$.25; large pkt., \$.50

Pansy Mme. Perret

Robust plants with gigantic flowers in rich red or wine colors.

3505. Pkt., \$.25; large pkt., \$.50

Pansy Masterpiece

Healthy, robust plants producing gigantic flowers on extra long stems which have elegantly waved or curled petals, giving the flower a distinctly refined appearance. All shades.

3510. Pkt., \$.25; large pkt., \$.50

Giant Bedding Pansies

By using Pansies in separate colors, planting one color in a spot, splendid and ideal effects are created in the garden. Long, narrow borders planted with one color are much handsomer than if assortments are used.

Perilla Nankinensis

A plant resembling Coleus in a certain way, but being much handsomer and easily raised from seeds sown in hotbeds in March or early out of doors.

- | | | |
|-------|-----------|--------------|
| 3675. | — — | Pkt., \$.15 |
|-------|-----------|--------------|

ANNUAL POPPY

One of the best known of the many popular annuals. Its bright, cheerful flowers are a joy, and we think the Poppy rewards one more for little effort than any other summer flower.

Sow seed in open ground where plants are to remain and thin out. If left too thin the plants will be weak and spindly and the blossoms inferior.

If the flowers are cut early in the morning when only partly opened, they will last quite long.

Single Flowered Poppies

- | | | |
|-------|--|--|
| 4000. | — Heatherhome Beauties. A blending of every imaginable form and color of single Poppies. A garden of surprises..... | Oz., \$.50; pkt., \$.10; 3 pkts., \$.25 |

PORTULACA

A gem for the garden. Will flourish in the driest kind of soil. The plant is of creeping habit with moss-like foliage, which from early summer until frost is hidden by the bright rose-like flowers. Sow seed about the end of April.

Single Portulaca

The flowers are fully 2 inches across, and have all the appearance of a single wild rose, with its anthers of golden yellow in the center.

- | | | | |
|------------------------------|--------------|---------------------------------|---------------------------|
| 4150. — Pure White | Pkt., \$.05 | 4190. — Bronze | Pkt., \$.05 |

|---------------------------------|--------------|

Rehmannia Angulata Pink Perfection

The most-talked-of plant at the International Flower Show in New York City last year. Talked of principally on account of its beauty and rarity.

A biennial of Chinese origin. Seed should be sown in the house in February or March, and afterwards transplanted to the garden. It is well-suited to be grown in conservatories.

The foliage is clustered close to the ground but throws a flower spike fully 5 feet in height, producing its clear, bright pink flowers for the entire length. Very effective in masses.

- | | |
|---------------|--------------|
| 4280. — | Pkt., \$.50 |
|---------------|--------------|

Rhodanthe Manglesi Flore Pleno

One of the everlasting straw-flowers, exceedingly interesting and useful to grow. The tiny plants with solid oblong leaves send up a number of exceedingly wiry thin flower-stalks, which terminate into a bell-shaped double small flower of an exquisite rose pink. Sow seeds out of doors in May and thin out the seedlings to a space of 6 inches.

- | | |
|------------|--------------|
| 4300. | Pkt., \$.15 |
|------------|--------------|

Ricinus (Castor Oil Plant)

4350. — Borboniensis Arboreus. This variety grows 15 feet high, and the enormous leaves are of a purplish color

4360. — Cambodgensis. Of compact growth, attaining a height of 6 feet. Leaf-stalks and stem of plants are resplendent in a glossy ebony while the foliage is bronze.. Oz., \$.25; pkt., \$.05

4370. — Zanzibariensis. A giant from Africa growing to enormous height with truly monstrous foliage in both green and bronze..... Oz., \$.30; pkt., \$.10

SALPIGLOSSIS

A valuable but still little known annual, with large funnel-shaped flowers beautifully veined with gold or silver markings.

The flowers are at their best during July and August, and are borne on long stems, making them valuable for cutting. Height, 2 to 3 feet.

Seeds can be started indoors in March or outdoors in May. Set plants 6 inches apart and keep well watered.

New Glorious Salpiglossis

A new strain growing 2½ feet high and very free flowering. Flowers often 3 to 4 inches in diameter.

4380. — Pure Deep Violet..... Pkt., \$.15

4387. — Rich, Rosy Chamois..... Pkt., \$.15

4383. — Clear Velvety Red..... Pkt., .15

4390. — Gold, Border White..... Pkt., .15

4385. — Brown Red, Veins of Gold. Pkt., .15

4395. — All Shades Blended..... Pkt., .10

Emperor Salpiglossis

Stout main stems topped with an enormous cluster of showy flowers. Does not branch. Valuable for massing.

- | | |
|-----------------------------------|--------------|
| 4575. — — All Shades Blended..... | Pkt., \$.10 |
|-----------------------------------|--------------|

SEEDS OF ANNUALS

Salvia (Scarlet Sage)

Scarlet Sages are strictly garden plants, and produce most beautiful color effects from August until late fall. The plants branch freely into a perfect bush, each side shoot being lined with long, tubular-shaped flowers, the whole plant having the aspect of a flame.

4600. — **Bonfire.** Plants grow to a perfect globe $2\frac{1}{2}$ feet high, and have enormous risps of the brightest scarlet flowers.....Pkt., \$.10
4605. — **Ostrich Plume (New).** Scarlet.....Pkt., .15
4610. — **Zurich.** A dwarf variety (15 to 18 inches high) flowering from July till frost. Bright scarletPkt., \$.15
4620. — **Jewel.** The finest and most effective of all Salvias. Two and one-half feet high with rich scarlet flowers from July until frost.....Pkt., \$.15
4625. — **Patens.** A variety with clear, bright blue flowersPkt., .25
4630. — **Farinacea (Light Blue Sage).** All blue variety, splendid for cutting. Blooms from August until frost. Two feet.....Pkt., \$.10

Scabiosa (Mourning Bride)

From a close tuft of pretty foliage arise a number of smooth, erect, wiry flower-stalks, unaccompanied by any foliage, to a height of 2 to $2\frac{1}{2}$ feet, terminating into a large, very double flat flower, composed of tubed and quilled petals from which protrude most attractively colored stamens. The flowers are sweet and are splendid for cutting. For garden effect they are excellent from July until frost.

Scabiosa is of easiest possible culture. Sow seeds out of doors in May, or in hotbeds in March. Transplant the seedlings if possible, and allow 6 inches of space for each specimen.

4650. — **Giant White**Pkt., \$.10; 3 pkts., \$.25
4660. — **Giant Pink (R Phlox Pink, shaded white)**.....Pkt., .10; 3 pkts., .25
4670. — **Giant Cherry Red**Pkt., .10; 3 pkts., .25

4710. — **Giant Purple Edged White**.....Pkt., .10; 3 pkts., .25
4725. — **Giant Splendid Blending** $\frac{1}{4}$ oz., \$.30; pkt., .10; 3 pkts., .25

Schizanthus (Butterfly Flower)

Often called "Poor Man's Orchid" from the fact that the form of the individual blooms resemble some of the finer Orchids. A splendid garden annual and very little known.

Sow seed outdoors where they are to remain and thin out the small plants to 6 inches apart.

4750. — **Wisetonensis.** A strain with unusually large flowers, and in most varied colors. Pkt., \$.25; 5 pkts., \$1.00
4755. — **Pink Beauty.** A beautiful shade of rose-pink. Very rare and new.....Pkt., .50

Solanum Aculeatissimum (Autumn Glory Bush)

A new decorative annual of easy growth which in its final stages is aglow with the most brilliantly colored fruit, which is hard-shelled, and, therefore, retains its original beauty for months after its perfection.

When the fruit is ripened cut the long branches down to the base, strip them of all foliage so that only fruit remains, and you have the most glorious vase material you have ever admired. Keep water in the vases.

The fruit is in the form of a tomato, and in size about $1\frac{1}{2}$ inches in diameter.

Sow the seeds indoors during March and April, and transplant to the garden after all danger of frost is past.

4772.Pkt., \$.15

Statice Sinuata (Annual Statice)

From the center of each plant arise many erect growing, leafless flower-spikes, which are most peculiarly formed, being triangular and having sharp paper edges. They again branch freely and grow to a height of 30 inches, bearing on the terminal of each branch a composite flat cluster of miniature flowers, of which each individual one fits in a cup.

Sow seeds either in hotbeds in March or outdoors in May.

4775. — — **Yellow.** Flower lemon yellow-cup martial-yellow.....Pkt., \$.10; 3 pkts., \$.25
4777. — — **Mauve.** Flower mauve-cup maize.....Pkt., .10; 3 pkts., .25
4778. — — **White.** Straw-cup, chicory blue.....Pkt., .10; 3 pkts., .25
4780. — — **Rose Pink.** Cup, after flowers are gone, white.....Pkt., .10; 3 pkts., .25

HEATHERHOME'S ORCHID FLOWERING SWEET PEAS

During the last few years Sweet Peas have become the most popular annual flower cultivated, primarily on account of the wonderful improvement in the newer form.

The flowers, which are beautifully waved and frilled, are borne on stems 12 to 15 inches in length in clusters of four or five flowers to a stem. If grown under congenial conditions the vines will often reach a height of from 6 to 10 feet.

Appreciating the superiority of this new type over the old "Grandiflora" we have discontinued offering any but the Orchid Flowering Varieties, and these we have had grown to our order in the cool regions of northern England, where the seed has a better chance of ripening to stand our climate than the ordinary stock.

Anyone who has ever sown our Sweet Pea seed knows that our quality is supreme.

Patrons find it hard to choose from a long list of varieties, and we have listed all varieties in color groups.

Full cultural directions for growing Sweet Peas will be sent upon request.

The Twelve Most Popular Varieties

One Packet of Each for \$1.00 (Value \$1.25)

1 Pkt. Countess Spencer. Delicate silvery pink.....\$.10	1 Pkt. Loyalty. Fine blue-flaked variety on white ground.....\$.10

 5270. — May Campbell. Cream marbled crimson.....(25 seeds) Pkt., .15;
 5480. — Mrs. W. J. Unwin. White flaked orange scarlet.....(25 seeds) Pkt., .10;

Use "Farmogerm" with Sweet Peas

Farmogerm is a preparation for treating the seeds, to supply them with the necessary bacteria, enabling them more readily to obtain the nitrogen necessary for their fullest development. The results are: larger, handsomer, more fragrant blossoms, and, better yet, more of them.

Farmogerm requires no preparation other than the addition of a small quantity of water, and soaking the seeds in it for a few minutes before planting.

Full directions for using Farmogerm are included with each order.

Farmogerm—Large bottle (postpaid)..... \$.50

The "K. & S." Seed Raiser

The whole idea of these Seed Raisers is to enable the gardener to grow a much larger quantity of seedlings in a much smaller space, and to grow them better than he could with the old-fashioned methods. In Fig. 1, we illustrate the small pots, in each of which the grower can insert the seed one to a pot. Each seed box holds 48 of these Seed Raisers.

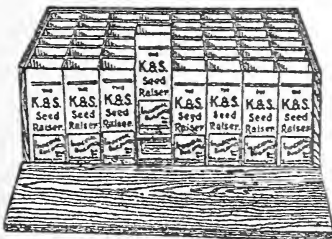

Fig. 2

Another advantage is in transplanting. The old way was to separate the seedlings, and often the roots would become torn in such a manner that the plant would die. In this new way each plant is confined to an individual space, and when transplanted they go on growing without interruption.

In Fig. 2 we show the complete box, ready for shipment.

SEEDS OF ANNUALS

STOCKS (Gilliflower)

Stocks have long been one of the most popular of all annuals. For fragrance it is unsurpassed. The newer forms have given this plant more grace and value as a cut-flower, and they will keep blooming perpetually during the entire summer.

Stock Heatherhome's Perfection

The individual plant produces a stout main stem, which after a certain growth should be pinched back to make it branch freely. Under these conditions plants produce from 10 to 15 enormously tall flowering-shoots, which are completely covered with enormous blooms of a delightful fragrance. When these branches are cut the plant will branch out anew, renewing the flower-shoots for a second crop.

4800. — Pure White	Pkt., \$.25	4840. — Crimson	Pkt., \$.25
4810. — Flesh Pink	Pkt., .25	4850. — Light Blue	Pkt., .25
4820. — Canary Yellow	Pkt., .25	4860. — Blending of All Shades....	Pkt., .25
4830. — Chamois Rose	Pkt., .25		

Stock Heatherhome Gem

An American strain produced by American methods of growing the plants in a hothouse, and re-selecting them for perfection of bloom and evenness in color until they are perfect.

The type of this improved sort is of the everblooming kind, which branches freely and throws up fully ten fine long spikes 30 inches high, completely dressed with the giant, perfect double flowers.

The finest strain obtainable and our exclusive offering.

4875. — Lavender	Pkt., \$.50	4890. — Deep Pink	Pkt., \$.50
4880. — Pure White	Pkt., .50	4895. — Crimson	Pkt., .50
4885. — Delicate Pink	Pkt., .50		

Stock "Riviera"

A strain originated at Nice, the main resort of the French Riviera. It is everblooming in habit, free in branching, and flowers exceedingly early. Height, 2 feet.

4900. — Beauty of Nice. Beautiful delicate pink	Pkt., \$.25	4940. — Violet	Pkt., \$.25
4910. — Pure White	Pkt., .25	4942. — Light Violet	Pkt., .25
4920. — Pale Yellow	Pkt., .25	4945. — Rose Mauve	Pkt., .25
4930. — Almond Blossom	Pkt., .25	4947. — Bright Carmine—Red	Pkt., .25
		4950. — Blending of All Shades....	Pkt., .25

New Annual Sweet William

Here is a novelty, which must appeal to every one. Seeds sown in May will produce plants which begin to flower in July and continue to do so until frost.

5950. — Blending of All Shades.....	Pkt., \$.15
-------------------------------------	--------------

Torenia Fournieri Grandiflora

An exquisite edging plant, growing compact and bushy with heart-shaped leaves. The flowers are of a most delicate mauve with the lower petals a rich Pansy violet. Height about 8 inches. Seeds should be sown either in hothouses in January or hotbeds in March.

5995. — — —	Pkt., \$.15
-------------------	--------------

Mammoth Verbena

A half-hardy annual. Seeds must be sown in the house or hotbed in March, and later transplanted into the open. Verbenas are used extensively for bedding, because they are in bloom the entire summer. Being of creeping habit, they remain dwarf (6 inches) and are densely covered with composite flat heads of flowers, resembling the annual Phlox in appearance.

6000. — — Blue (R Roslyn Blue).....	Pkt., \$.10
6010. — — Scarlet	Pkt., .10
6020. — — Pink	Pkt., .10
6030. — — White	Pkt., .10
6040. — — Helen Wilmott. One of the finest-colored Verbenas; pink; the shade of the Paul Neyron Rose	Pkt., \$.25
6050. — — All Shades Blended.....	¼ oz., \$.50; pkt., .10

Verbena Erinoides Alba

An erect growing Verbena which has elegant fine foliage like Cosmos. The flowers appear freely in composite heads of 2 inches in diameter. Color, pure white; height, 12 inches; space, 6 inches. Sow seeds early in the frame. Splendid for edging.

6065. — — —Pkt., \$.10

Vinca Rosea

A beautiful tender annual bedding plant, growing 12 inches high and covered throughout the summer with single, fairly large open flowers.

Seeds should be started in January, potted up and set out of doors in May. Space for each plant, 9 inches.

6075. — — **White with Pink Eye**Pkt., \$.10; 3 pkts., \$.25
 6080. — — **Pure White**Pkt., .10; 3 pkts., .25
 6085. — — **Rose Pink**Pkt., .10; 3 pkts., .25
 6087. — — **Delicata**. A new very large pink varietyPkt., .25

Virginia Stock

A dwarf compact little plant, 4 inches high, covered with small gillyflowers all summer. Space, 6 inches. Sow seeds outdoors in May.

6092. — **All Shades Blended**Pkt., \$.10

Viscaria Oculata Nana Compacta

Resembling to a degree the Bedding Lobelia, except that plant, foliage and flower are about twice the size. The plant grows about 10 inches high and is showered with blossoms of red, white and blue, the colors appealing to all Americans. Sow seeds out of doors in May.

6095. —Pkt., \$.25; 5 pkts., \$1.00

Annual Wallflower

In growth, habit and appearance the plant as well as the flowers resemble a single flower Gillyflower, to which family they belong. Very popular throughout Europe and rapidly becoming so here. Very fragrant, and in its colors original and odd.

Sow seeds either indoors in March or outdoors in May.

6100. — — **Blood Red** (R Burnt Sienna, Class 6120. — — **Creamy White**Pkt., \$.10
 3)Pkt., \$.10 6130. — — **Primrose Yellow**Pkt., .10
 6110. — — **Golden Yellow**Pkt., .10 6140. — — **All Shades Blended**Pkt., .10

Three Packets of Any of the Above, \$.25

Pinch the taproots when planting out; you will find it will make them bloom earlier.

Heatherhome's Famous Jumbo Zinnias

The most thankful of all annuals. Even if sown out of doors as late as June it will be in full bloom by end of July and remain in bloom right up to frost. The plants branch freely above the ground and produce their Aster-like flowers on straight, stiff stems, 12 inches long, from 6 to 12 on a plant. They serve for cutting as well as an attraction in the garden. For early blooming, sow seeds in a hotbed in March and transplant to the open in May. Seeds sown out of doors early in May will produce flowers late in June. All seedlings should be transplanted, and a space of fully 10 inches should be allowed for each specimen. Plants grow 2½ feet high, and produce flowers which are the acme of perfection. Perfect Zinnias should be globular in shape and must show no open center.

6280. — **White**Pkt., \$.10 6320. — **Golden Yellow**Pkt., \$.10
 6290. — **Delicate Pink**Pkt., .10 6330. — **Sulphur Yellow**Pkt., .10

 6310. — **Crimson**Pkt., .10

Three Packets of Any of the Above, \$.25

The Secret Garden

Man is born with a natural love for flowers, and all that is necessary is to develop that inborn love during the early years of his life. Why not do so with the children? Encourage them to grow flowers while they are young. Give them a space of their own which they can call their garden. For this reason we have blended several hundreds of easy-growing annuals into one grand mixture, and we suggest that they are given to children to use in their own plot.

6400. — —Large packet (sufficient for a plot 3x6), \$.10; oz., \$.25; ¼ lb., \$85; 1b., \$2.50

Please Order All Seeds by Number

SEEDS OF CLIMBING ANNUALS

SEEDS OF CLIMBING ANNUALS

6500. **Balloon Vines.** A rapid-growing vine with beautiful foliage and white flowers which turn into seed vessels resembling a balloon.....Pkt., \$.05
6525. **Runner Bean.** Large, quick growing vine with finely cut foliage and large scarlet flower spraysLarge pkt., \$.10
6550. **Cobea Scandens.** Rapid-growing climbers attaining a height of from 20 to 30 feet. Large bell-shaped flowers of purple.....Pkt., \$.10
6555. — — **Alba.** White form of the foregoing.....Pkt., .10
6575. **Cardinal Climber.** The most valuable climbing annual introduced in recent years. Within a short time it will attain a height of 20 feet and will spread fully 4 feet, with beautiful tubular flowers of brilliant scarlet. Sow seed in pots, one seed to each pot, and transplant later in the gardenPkt., \$.15
6600. **Dolichos (Hyacinth Bean).** A fast-growing vine with flowers and foliage resembling the bean. The sprays are very abundant and after the purple flowers disappear, beautiful narrow seed pods take their place.....Pkt., \$.05
6610. — **White**Pkt., .05
6650. **Echinocystis Lobata (Wild or California Cucumber).** The quickest-growing vine in existence. Will reach a height of 20 feet in a very short time, leaves are much like a small grape leaf and the vine is covered with small white flowers followed by a seed pod much like a Burr cucumberPkt., \$.10
- Ornamental Gourds.** A very popular and ornamental vine, producing peculiar-shaped fruits in all sorts of odd shapes and sizes.
6700. — — **Small Fruited Varieties**.....Pkt., \$.05
6710. — — **Large Fruited Varieties**.....Pkt., .05
6760. **Humulus Japonica (Green-Leaved Hop)**.....Pkt., .10
6750. — **Japonica Variegata (Variegated-Leaved Hop)**Pkt., .10
6825. **Ipomoea Imperialis (Japanese Morning-glory).** This strain has very large leaves, sometimes variegated and produces gigantic single and double flowers of every imaginable color. Pkt., \$.10; 3 pkts., \$.25
6850. — **Grandiflora Alba (Moonflower).** This well-known vine resembles large-leaved Morning-glories, with pure white flowers which open in the evening.....Pkt., \$.10; 3 pkts., \$.25
6855. — **Rubra Coerulea (Heavenly-blue Morning-glory).** Large clusters of beautiful sky-blue flowersPkt., \$.10
6860. — **Quamoclit (Cypress Vine).** A popular annual climber with scarlet star-like flowers and finely cut foliage.....Pkt., \$.05
6900. **Kenilworth Ivy.** A rapid-growing hardy vine, growing from 3 to 6 feet in height. Valuable for hanging baskets, vases or clinging to walls or in the rockery.....Pkt., \$.10
6925. **Kudzu Vine.** Another rapid-growing perennial vine from Japan. Flowers of a purplish violet and good foliage. Sow seeds indoors from January to March.....Pkt., \$.10
- Momordica.** Remarkably quick-growing annual vine with handsome rich green foliage and golden-yellow-warted fruit, shaped like an apple. The fruit when ripe breaks open, displaying its brilliant crimson interior. Will grow to a height of 10 feet. Sow seeds where they are wanted to be permanently. Thin out to 6 inches apart.
6950. — **Balsamina (Balsam Apple)**.....Pkt., \$.05
6960. — **Charantha (Balsam Pear).** Resembling the foregoing sort in every respect, except that the fruit is pear-shaped.....Pkt., \$.05
- Nasturtiums.** Both the Tall and Lobb's Nasturtiums are used as climbers and are very valuable as such. For complete list of colors, with prices and descriptions, see Page 18.
3200. — **Heatherhome's Blending Tall**.....Pkt., \$.05; oz., \$.15; ¼ lb., \$.45
3250. — **Lobb's Blending of Glorious Shades**.....Pkt., .05; oz., .15; ¼ lb., .50
6975. **Thunbergia Alata.** A valuable little trailer used principally for window boxes, vases or stone work. Pretty green foliage and flowers of orange, yellow and creamy white.....Pkt., \$.10

SEEDS OF PLANTS FOR GREENHOUSE CULTURE

It is our earnest endeavor to supply only seeds of superior merit, and any one who has ever tried our stocks will verify this statement.

We realize the importance in quality, particularly in the following class of plants and have spared no effort nor expense to secure only seeds of the best strains and undisputed merit.

Realizing that the following list will appeal only to skilled gardeners we have omitted all suggestions as to culture.

9400. **Amaryllis "Heatherhome's Strain."** From one of the finest English collections..Pkt., \$.50
143. **Antirrhinum (Snapdragon)—Phelps White.** Purest whitePkt., .25
198. — **Nelrose.** Delicate pink with white throatPkt., .25
9450. **Ardisia Crenulata.** The well-known red-berried Christmas plant.....Pkt. .25

SEEDS OF GREENHOUSE PLANTS

9475. *Asparagus Plumosus nanus*. Greenhouse grown seeds only.....100 seeds, 1.00
 9485. — *Sprengeri*. The drooping variety.....100 seeds, .35
 830. *Begonia Tuberous Rooted—Single*. All shades blendedPkt., .50

Larkspur. The annual varieties are excellent when grown in the greenhouse during the winter. We refer to the list under annuals.

9850. *Leptosyne Stillmanni*. This plant resembles a dwarf *Cosmos* in foliage and form of flower. The yellow flowers appear on stems 18 inches long, in boundless profusion during the entire winter. Excellent for cutting.....Pkt., \$.15; 2 pkts., \$.25
 9875. *Mignonette Winter King*. We offer what we consider the finest forcing *Mignonette* in existence. A real monarch when compared to the usual winter *Mignonette*. The truly majestic spikes are brightly colored and of a most delightful fragrance. Original stock seed selected from the finest spikes is all we furnish.....Pkt., \$.50; 3 pkts., \$1.00
 9880. *Musa ensete* (Abyssinian Banana).....Pkt., .25

BULBS AND BULBOUS PLANTS

Hyacinthus Candicans (Summer Hyacinths)

A most valuable garden subject throwing spikes from 4 to 5 feet in height, each bearing 20 to 30 large, white, bell-shaped flowers during July and August. Per dozen, \$.65; per 100, \$4.50

Lycoris squamigera (Magic Lily)

A hardy Amaryllis producing long stalks of beautiful pink flowers—lily shaped, each 3 to 4 inches across.

Strong Blooming Bulbs.....Each, \$.45; per dozen, \$4.00

Giant Montbretias

A very valuable bulbous plant which, once planted, will remain permanently and will go on producing beautiful star-like flowers year after year.

Bulbs should be planted about 2 or 3 inches apart in groups of at least twelve of a variety and wherever possible in groups of 100 or 1,000. Their low cost makes large plantings inexpensive and the effects obtained are wonderful.

	Per Dozen	Per 100
Crocsmiaeflora. Fiery red.....	\$.30	\$2.50
Potsi Grandiflora. Rich shade of orange.....	.30	2.50
Sulphura. Yellow30	2.50
Mixture of Above Colors25	2.00

New Mexican Ever-Blooming Tuberose

A new type beginning to bloom during May and lasting until frost. The pure white, fragrant, single flowers are borne on slender, graceful stems, and are excellent for cutting.

Per dozen, \$.50; per 100, \$3.50

Zephranthus (Fairy Lily)

Very pretty dwarf bulbous plants producing flowers in great profusion throughout the summer.

The bulbs must be lifted in the fall and stored dry through the winter.

Rosea. Delicate refreshing pink.....Per dozen, \$1.00; per 100, \$7.50

Candida. Pure white large flowers.....Per dozen, .50; per 100, 3.00

Hardy Garden Lilies

No garden is complete without some Lilies, and we have selected a choice list of the finest varieties suitable for the gardens of this country.

Auratum (Gold-banded Lily). Large graceful flowers of ivory white, striped through the center with a band of golden yellow..... Each, \$.35; per dozen, \$3.50

Canadense (Canadian Bell Lily). An ideal Lily for naturalizing, doing well in both sun and shade. Grows to a height of fully 5 feet and bears bell-shaped flowers of pale yellow, during July.

Each, \$.15; per dozen, \$1.50

Canadense Flavum. Golden yellow.....Each, .20; per dozen, 2.00

Canadense Rubrum. Red and yellow.....Each, .20; per dozen, 2.00

Speciosum Album. Large white flowers in the greatest profusion. A very valuable and popular variety

Each, \$.35; per dozen, \$3.50

Speciosum Rubrum. White-spotted and flushed rich rosy crimson....Each, .35; per dozen, 3.50

Superbum (Turks Cap Lily). The most valuable of all lilies for naturalizing or in the garden.

When established will often produce 50 turban-shaped flowers of a beautiful bright orange crimson. Height, 4 to 6 feet. August.....Each, \$.15; per dozen, \$1.50

Tigrinum (Tiger Lily). The well-known old-fashioned Lily, blooming during August and September

Each, \$.15; per dozen, \$1.50

We Have a Large Quantity of Lily Bulbs in Cold Storage for Delivery Throughout the Summer for Forcing. These Bulbs Are Packed in Cases of 25, 50 and 100. Prices on Application.

HEATHERHOME'S GLADIOLI

One of Our Main Specialties

By many, the Home of Heather is known first for its superb quality Gladioli, and it is our pleasure to again offer a select list of only the finest named kinds. Many of the varieties were originated by us, and ours is the only stock that is true.

The uses of Gladioli are many, but perhaps they are most popular as cut-flowers, or for planting among shrubs, or in the hardy border.

We recommend planting at intervals of about every two weeks, from the time the frost is out of the ground until June 30, so that the flowers will appear continuously throughout the garden year.

All bulbs were grown at our Nurseries, and of the highest quality.

Complete cultural directions will be sent when requested.

NEW EVERBLOOMING GLADIOLUS

Primulinus Hybrids

(Commonly Called "Maid of the Mist")

The easiest of all Gladioli to grow being in bloom about seventy days from the day of planting. The leaves are much finer and narrower and the stalks grow to a height of about four feet, bending slightly, being far more graceful than the older type.

The flowers, too, are slightly smaller than the old, but in daintiness of color are unrivalled, being of glorious shades from pale yellow to deep orange, from light pink to bright crimson and from rose to the most intense salmon. Surely, no garden is complete without some of these rare beauties.

Kunderd's Own Mixture. A wonderful mixture, containing seedlings of this most popular type. Many will have the much-desired ruffled edges.....	1.00	7.50	

HEATHERHOME'S DAHLIAS

This season we are offering a condensed list of Dahlias for the "War Time Flower Garden."

Our novelties are superior in every way, and, we are sure, will be welcomed by all lovers of new and rare Dahlias.

Experience has taught us that many people still prefer to buy tubers or pot roots of Dahlias, and we are accordingly offering most of the varieties in our list both in this form and in the newer and better way, young plants.

SUPERB NEW DAHLIAS FOR 1918

Paeony-Flowered Dahlia—Annie Slocombe

The finest Paeony flowered variety ever introduced. The color is very rich and rare, the face of the flower rich golden yellow with a glowing salmon red reverse—truly a wonderful combination. The flowers are fully 8 inches across and are borne on fine long stems. Each, \$1.50

Paeony-Flowered Dahlia—Clackamas

An improved form of the variety "Hortulanus Budde," with a more pleasing color and better habit of growth. The flower stems are stronger, and the color, brilliant scarlet, is a great advance over the older variety. Each, \$.75

Paeony-Flowered Dahlia—La Conner

A Dahlia standing out from all other varieties on account of its rare color—lavender, shading from salmon to old gold, really a rare and odd combination. The flowers are borne on strong wiry stems. Height from 3 to 3½ feet. Each, \$1.00

Duplex Dahlia—Lily Ensinger

A fine, strong, tall-growing variety with extra large flowers of a rich rose pink. Very long stems make this Dahlia excellent for cutting. One of the best of this type. Each, \$.50

New Decorative Dahlia—Scarlet Gem

The finest novelty we are offering this season, and one of the finest varieties ever introduced. Resembling to a degree Souv. de Gustave Douzon, but superior in every way, the color is a beautiful bright scarlet, while the stems are much longer and very strong. A true novelty and worthy of trial. Each, \$2.00

Decorative Dahlia—Painted Chief

A variety resembling Geisha, but an improvement in that the flowers are much larger and of a better and deeper color, a combination of yellow and scarlet.

The plant is tall-growing and the flowers are borne on long stems, making it excellent for cutting.

Young Plants	Each, \$.75
Pot Roots or Tubers	Each, 1.00

Dwarf Single Dahlia—White Star

The same as Crawley's Star in every way except in color, which is pure white.

This variety, when planted with the pink one, will make a rare combination.

Each, \$.50; per dozen, \$5.00

Dahlia Poinsettia

Having Notable Individuality

Being the same color as the Poinsettia, there are usually two rows of bright scarlet petals, brought into a brilliant scarlet contrast by a rich golden-yellow center.

Young Plants	Each, \$.25; per dozen, \$2.50
Pot Roots or Tubers, at once	Each, .35; per dozen, 3.50

Dwarf Single Dahlias

"Crawley Star"

A most charming variety growing into a globular bush 3 feet high, and completely showered with medium-sized single blossoms of a rich coral pink, with a halo of blood-red in the center. The plant branches from the bottom, so that all flowers are on long stems.

Plants or Tubers.....Each, \$.35; per dozen, \$3.50

Jules Closon

A splendid bedding Dahlia of dwarf habit, never attaining a height of more than 18 inches. Color is a bright scarlet turning carmine on a yellow center.

Plants or Tubers.....Each, \$.25; per dozen, \$2.50; per 100, \$18.00

Heatherhome's Single Shower Dahlias

Crimson Shower. Rich, clear crimson, with a narrow halo of gold near the disc. Plants and Tubers.

Golden Shower. Golden yellow. Plants and Tubers.

Heatherhome Shower. Orange salmon with golden yellow center. Plants only.

Lavender Shower. Deep yellow center, with lavender-tipped petals. Plants and Tubers.

Lemon Shower. Lemon yellow. Plants and Tubers.

Roseline Shower. Light roseline purple. Plants and Tubers.

Scarlet Shower. True scarlet. Plants and Tubers.

White Shower. Pure white; largest of all. Plants and Tubers.

Each, \$.50; Per Dozen, \$5.00

Pompom Dahlias

Catherine. A plant robust and healthy in growth, and a prolific bloomer of lemon yellow.

Pot Plants.....Each, \$.25; per dozen, \$2.50

Snow Clad. Pure snowy white.

Pot Plants.....Each, .25; per dozen, 2.50

Vivid. Bright crimson, red, robust grower and free flowering.

Pot Plants.....Each, .25; per dozen, 2.50

Plants Can Only Be Delivered After May 20th

HEATHERHOME'S GARDEN ROSES

During the last few years the newer varieties of Roses have been so much improved that almost all of the older varieties have been dropped from the lists and are supplanted by others, better in many ways.

The Hybrid Tea Roses of today are continuous bloomers and bear flowers of wonderful form, fragrance and color throughout the summer and fall. The advance has been wonderful, but we have kept abreast of the times and offer in the following what we consider a very unique and valuable list, in that we have included only the best of the newer varieties, and the ones of the old varieties that have withstood the competition of the newer sorts. A real and valuable list.

In our Nurseries we have many other varieties not listed here, and should you wish to try any other new or standard Rose, we would be pleased to receive your list for quotation.

Roses are extremely scarce this season, and we suggest early orders.

Selected List of Hybrid Tea Roses

(The Everblooming Rose)

- Antoine Rivoire.** A splendid rose for the garden. Flowers soft peach or flesh with the base, yellow. Free and continuous bloomer.
- Dean Hole.** Large flowers of silvery carmine, shaded salmon, very free flowering and of splendid form.
- Dora Hansen.** Peach pink, deepening in center, sweetly fragrant.
- Edward Mawley.** Velvety rich crimson, touched with maroon.
- Gruss An Teplitz.** The freest blooming of all Roses, and the easiest one to grow. Unusually robust in growth, with flowers of rich velvety crimson.
- Jonkheer J. L. Mock.** The most perfect garden Rose. Robust plant and giant flowers of deep imperial pink, with the reverse of the petals silvery pink.
- Kaiserin Augusta Victoria.** The best fragrant free-growing white variety.
- Lady Hillingdon.** Long-pointed buds of deep apricot yellow; very free flowering.
- La France.** Large fragrant flowers of a clear satiny pink.
- Lyon.** An enormous very double flower of lovely shrimp pink, with golden center and shading.
- Madam Cochet.** One of the old favorite varieties with flowers of deep rose pink; large full flowers.

HYBRID TEA ROSES (Continued)

- Madam Edouard Herriot (Daily Mail Rose).** An excellent and popular variety vigorous in growth, producing an abundance of coral red flowers lightly shaded yellow and peach red.
- Madam Jules Grolez.** Bright satiny China Rose. Fine for massing.
- Marquise de Sinety.** Exquisitely shaped large flowers of golden yellow, shaded bronzy red.
- Ophelia.** Excellent free-blooming variety with salmon flesh, shaded rose, flowers.
- Prince de Bulgarie.** Deep rosy flesh, shaded with salmon, large, full. A beautiful decorative Rose.
- Sunburst.** Very valuable Rose of light cadmium yellow with orange center.
- Viscountess Folkestone.** Beautifully formed flower of creamy pink, center deep salmon pink.
- William Shean.** Purest pink, petals shell shape, immense size.
- William R. Smith.** Very vigorous grower with flowers of rosy pink, blended salmon.
- Wellesley.** Warm Carnation Rose in color, vigorous grower and free bloomer.

ALL HYBRID TEA ROSES—60c. Each, \$6.00 Per Dozen

The Seven Best Hybrid Perpetual Roses

This class comprises the strongest-growing plants; but, if left alone, would produce just one big crop of flowers in June. We suggest that as soon as the plants are through blooming in early summer, prune them back severely and give them a fresh supply of bonemeal. They will then produce a splendid second crop of flowers in September.

All of them bear mammoth flowers of the Cabbage Rose form.

American Beauty. Surely every one knows this wonderful rich, rosy, crimson variety. A superb Rose in every way.

Frau Karl Druschki (White American Beauty). An immense Rose of glistening white.

George Arends. A beautiful deep rose pink, with a delightful fragrance.

Heinrich Muench. Soft pink, very large and full.

Hugh Dickson. Brilliant crimson, shaded scarlet, good size, free flowering.

J. B. Clark. Very deep scarlet, shaded crimson, vigorous grower.

Mrs. R. G. Sharman Crawford. Deep rose pink shaded flesh, very large.

ALL HYBRID PERPETUAL ROSES—60c. Each, \$6.00 Per Dozen

Heatherhome's Climbing Roses

The following list contains all of the varieties which have proven their superiority in some respect and is of course an up-to-the-minute collection.

Hiawatha. Enormous single, brilliant scarlet flowers.....

Each, .60; per dozen, 6.00

Lady Gay. Large clusters of cherry pink flowers.....

Each, .60; per dozen, 6.00

Silver Moon. A new rapid-growing variety with gigantic flowers, of a milky white. Very free blooming; immune from insects.....

Each, \$.75; per dozen, \$7.50

Tausendschoen. Produces clusters of pretty soft pink flowers in great profusion.

Each, \$.60; per dozen, \$6.00

White Dorothy Perkins. A pure white flower of the same type as the pink "Dorothy Perkins."

Each, \$.60; per dozen, \$6.00

Standard or Tree Roses

The most stately and beautiful of all Roses. Our list has been carefully chosen and contains only the best varieties for American gardens.

Augustine Guinoisseau (White La France).

Betty. Ruddy gold.

Gen. McArthur. Velvety crimson.

Jonkheer J. L. Mock. Imperial pink.

Killarney Queen. Clear pink.

Lady Alice Stanley. Deep coral pink.

Lady Ursula. Flesh pink.

Mme. Caroline Testout. Silvery pink.

Mrs. Aaron Ward. Indian yellow.

Mrs. John Laing. Soft pink.

Mrs. W. B. Miller. Light blush.

Ophelia. Salmon-flesh.

\$1.50 Each, \$15.00 Per Dozen

AN IDEAL PRESENT—Four Standard Roses. Our Selection of Varieties, \$5.00

HARDY GARDEN FLOWERS

From Seeds and Plants

You will be surprised, no doubt, at our original way of offering the following list of "Old Fashioned Flowers" in that we have included both the seeds and plants in the same listing. This was done for several reasons:

1. To enable our patrons to make a more intelligent selection from the former long lists in which so many duplications occurred.

2. To allow us to offer a new list from which many undesirables have been discarded and many new and choice ones added, making our list the most complete and up to date of any American house.

3. To save in space and thereby conserve a large amount of paper, ink and labor; in other words, to save our share, a thing every one should do during these troublesome times.

The high quality of our stocks will be maintained in every instance, and we are sure our friends will be delighted with the high quality of the seeds and plants in the following list.

COMPLETE LIST OF HARDY PERENNIALS

- ACANTHUS MOLLIS** (Bear's Breech). A stately plant with large handsome deep green leaves, and strong spikes of purple and white flowers. Excellent for a sub-tropical effect. Height, 3 feet. June to September.....Each, \$.30; per dozen, \$3.00
Seeds No. 6985..Packet, .25
- ACHILLEA** (Milfoil or Yarrow). An extremely varied and useful family, suitable for the border.
- **Ptarmica** fl. pl. (The Pearl). One of the most useful hardy plants for cutting. The pure white double flowers are produced in the greatest profusion throughout the summer. Two to 2½ feetEach, \$.20; per dozen, \$1.75
Seeds No. 7010..Packet, .25
 - **Ptarmica**, **Boule de Neige**. Compact habit; double white flowers. First-class plants, for the front of border. One foot, June to SeptemberEach, \$.25; per dozen, \$2.50
 - **Millefolium Cerise Queen** (Milfoil). Bright cerise flowers in June. Two feet.
Each, \$.20; per dozen, \$1.75
 - **Eupatorium**, **Parker's Variety**. Fine fern-like foliage, primrose yellow flowers on 5-foot stalks. Blooms all season.....Each, \$.25; per dozen, \$2.50
- ACONITUM** (Monkshood). A large group varying in height, flower and foliage. They vary from 2 feet to 5 and 6, and often 8, feet in height, with stout, erect stems, neat habit, and long spikes of large flowers of different colors. Especially effective in moist, partially shaded positions. On dry soil the plants will not grow quite so tall.
- **autumnale**. Violet purple flowers in August and September.....Each, \$.15; per dozen, \$1.50
 - **Fischeri**. A dwarf variety not over 2 feet high, with bright blue flowers during September and OctoberEach, \$.25; per dozen, \$2.50
 - **Lycototum pyrenaicum**. Sprays of yellow flowers from June to August.
Seeds only, No. 7070..Packet, \$.15
 - **Napellus**. The most popular variety. Large dark blue flowers in August and September. Three feetEach, \$.20; per dozen, \$2.00
Seeds No. 7050..Packet, .10
 - **Napellus album**. A white form of the above.....Each, \$.20; per dozen, \$2.00
Seeds No. 7055..Packet, .15
 - **Napellus bicolor**. Blue and white flowers in August and September. Two to 3 feet.
Each, \$.20; per dozen, \$2.00
 - **Wilsoni**. A recent introduction from China. A strong growing variety with violet blue flowers. Five to 6 feet. September and October.....Each, \$.40; per dozen, \$4.00
Seeds No. 7065..Packet, .50
- AGROSTEMMA** (Mullein Pink). Very free flowering decorative plants of the easiest culture. Most effective when grown in large masses.
- **coronaria**. Masses of crimson flowers, forming a pleasing contrast with a silvery downy foliage. Two feet. June and July.....Each, \$.20; per dozen, \$1.75
Seeds No. 7800..Packet, .05
 - **coronaria alba**. Pure white form of the above.....Each, .20; per dozen, 1.75
Seeds No. 7810..Packet, .05
- ALYSSUM** (Gold Dust, Rockmadwort). Very pretty little hardy plants, lending themselves to many and varied uses. Being of dwarf habit they are excellent for edging or in the rockery. Used also for beds, vases and baskets.
- **saxatile compactum**. The most popular sort. Golden yellow flowers in profusion during May. Height, one foot.....Each, \$.15; per dozen, \$1.50
Seeds No. 7860..Packet, .10
 - — **Flore pleno**. Double form of the above. The flowers are larger and the blooming season longerEach, \$.35; per dozen, \$3.50
 - **Silver Queen**. Flowers of sulphur yellow. Seeds only, No. 7870.....Packet, .25

ANEMONE (Wind Flower). One of the largest and most useful families of hardy plants, varying in time of flowering from early spring until fall, and in height from 6 inches to 3 to 4 feet. The Japanese varieties are among the most valuable fall blooming hardy plants and should be planted in a place where they can remain for several years. Protection during winter is advisable. The Pulsatilla type will succeed well in moist and shady situations. This type will grow about 9 inches high and bloom very early in the spring.

a glistening white. Valuable for cutting.....Each, \$.20; per dozen, \$2.00

Hardy Asters (Michaelmas Daisies)

Our gardeners, as a rule, have not considered the possibilities for garden brightness in the autumn or else the Hardy Asters would be much better known.

It is a mistake to ignore Hardy Asters merely because every road and brookside shows what wonderful effects Nature produces even in seeming neglect. The newer cultivated varieties are a wonderful advance and we urge a more liberal use of this splendid material in all gardens.

For naturalizing or irregular beds, or for hiding objectional places, they are invaluable.

Asters are easily cultivated and respond quickly to good care with brighter, larger flowers.

Dwarf Alpine Asters

- **Alpinus.** A much-admired variety growing about a foot high and bearing, during June and July, bright purple flowers. Each, \$.20; per dozen, \$2.00
- **Sub-Coeruleus.** One of the finest of the dwarf species, flowering in May and June. The flowers are very large of a very rare amethyst blue. Having long stems, it is excellent for cutting. semi-globular shape. Flowers of shell pink in September. Each, \$.25; per dozen, \$2.50
Seeds No. 8175..Packet, .25

Fall Flowering Hardy Asters

- **acris.** Very distinct species. One of the earliest to flower. Large shaggy heads of lavender blue, in greatest profusion. Two feet. August and September Each, \$.20; per dozen, \$2.00
- **Advance (New).** Completely covered with lavender flowers in September. Four feet. Each, \$.30; per dozen, 3.00
- **Amellus Beaute Parfaite.** Large lavender flowers from August 15th on. Height, 2 feet. Each, \$.25; per dozen, 2.50
- **Amellus bessarabicus.** Large deep, rich violet flowers. Two feet. August and September. Each, \$.25; per dozen, 2.50
- **Amellus major.** Dark violet-blue flowers borne on loose-spreading branches. Two feet. August and September Each, \$.25; per dozen, \$2.50
- **Amellus Perry's Favorite.** The gem of the entire collection. Attains a height of 18 inches of a semi-globular shape. Flowers of shell pink in September Each, \$.25; per dozen, \$2.50
Seeds No. 8180..Packet, .25
- **Amellus Perry's Pink.** Resembles the above except in color, which is a bright pink, and that it is slightly taller in growth. Each, \$.30; per dozen, \$3.00
- **Amelus Ultramarine.** Brilliant dark blue flowers in clusters during September. Height, 5 feet. Each, \$.30; per dozen, \$3.00
- **Amethytinus.** A very late flowering variety, being at its best in October. Branches freely from the bottom and is covered with flowers of an amethyst blue. Height, 4 to 5 feet. Each, \$.25; per dozen, \$2.50
- **Climax (New).** Completely covered with large clear lavender flowers in October. Height about 5 feet Each, \$.35; per dozen, \$3.50
- **Double White.** Double daisy-like flowers during August and September. Height about 5 feet. Each, \$.35; per dozen, \$3.50
- **Edna Mercia.** Large bright red flowers. Three feet. September. Each, .25; per dozen, 2.50
- **ericoides, Enchantress.** Forms dense bushes of heath-like foliage, thickly studded with small dainty blush-white flowers. Four feet. September. Each, \$.35; per dozen, \$3.50
- **ericoides, Katie.** A compact bush smothered with small white flowers. Three feet. September and October Each, \$.35; per dozen, \$3.50
- **Feltham Blue.** Very pretty, analine blue flowers. Flowers profusely from August to September. Height, 4 feet. Each, \$.30; per dozen, \$3.00
- **grandiflorus.** One of the latest to bloom. Producing its extra large dark bluish-violet flowers in November. Rare. Each, \$.35; per dozen, \$3.50
- **Hon. Edith Gibbs.** One of the best Asters yet produced. The flowers are a dainty rosy lavender and are profusely borne on long arching sprays which reach to the ground. The whole effect is that of a fountain of flower. Three and one-half feet. September and October. Each, \$.25; per dozen, \$2.50
- **Novæ Angliæ Lil Fardell.** A busy growing variety about 2½ feet tall. During September the plant is covered with gigantic flowers of a rich claret color. Each, \$.25; per dozen, \$2.50
- **Novæ Angliæ Mrs. S. T. Wright.** Distinct shade of purple. Four feet. September and October. Each, \$.25; per dozen, \$2.50
- **Novæ Angliæ Rubra.** Exceedingly large flowers of deep crimson. Height, 2 feet. Flowers during September Each, \$.20; per dozen, \$2.00
- **Peggy Ballard.** A sensational novelty of recent introduction. The plant has a compact erect habit and the flowers are a bright violet-purple completely double, and borne on long sprays. Three feet. September and October. Each, \$.50; per dozen, \$5.00
- **St. Egwin (New).** Clear rose pink flowers in August and September. Grows but 3½ feet high, but is very compact and robust. Each, \$.20; per dozen, \$2.00
- **Snowflake.** Small pure white flowers. Two and one-half feet. September and October. Each, \$.20; per dozen, 2.00
- **White Queen.** Pure white. Three feet. September. Each, .20; per dozen; 2.00

We Offer Seeds in a Mixture from the Above Varieties. Seeds No. 8200. Packet, \$.10

SEEDS AND PLANTS OF PERENNIALS

ANCHUSA (Alkanet—Sea Bugloss). The newer forms of this flower are a great improvement, and naturally very popular. These are ideal subjects for the hardy border. If the flower spikes are cut back after blooming a later crop of flowers will appear.

- **Italica Dropmore Variety.** A striking variety producing spikes of gentian blue flowers, 4 to 5 feet tall, in June.....Each, \$.25; per dozen, \$2.50
Seeds No. 7900..Packet, .25
- — **Opal.** Identical with the foregoing except in color, which is a brilliant turquoise blue.
Each, \$.35; per dozen, \$3.50
Seeds No. 7910..Packet, .35
- — **Perry's Variety.** A variety with very large deep blue flowers, borne on spreading branches. Four to 5 feet.....Each, \$.35; per dozen, \$3.50
Seeds No. 7920..Packet, .50

ARENARIA MONTANA (Sandwort).. Invaluable rock plant, of the easiest culture, also well worth a position in the hardy border, forming low cushions. It is covered with beautiful large pure white flowers all through June.....Each, \$.20; per dozen, \$2.00

ARMERIA. Attractive dwarf plants that succeed in almost any soil, especially useful for edging borders. Grows about 8 inches high, compact and dense, with deep green foliage. Flowers in profusion during the early spring, and shows bloom off and on during the summer and fall.

- **maritima.** Compact globular heads of bright pink flowersEach, \$.15; per dozen, \$1.50
- — **alba.** Rose-tinted white form of the foregoingEach, \$.20; per dozen, 1.75
- — **Lauchiana.** Compact of growth, with deep rose flowers.....Each, .20; per dozen, 2.00

ARTEMISIA. A family comprising flowering and ornamental foliage plant. The leaves of many species give off an aromatic odor when bruised.

- **Abrotanum** (Southern Wood). A very popular old-fashioned garden plant of bush-like habit, having finely divided foliage possessing a refreshing fragrance. Height, 2 to 3 feet.
Each, \$.20; per dozen, \$2.00
- **lactiflora.** Flowering during August and September when flowers are scarce in the hardy garden, makes this one of the most popular perennials. Often growing to the height of 6 feet and completely dressed with miniature oval, milky-white flowers. Delightfully fragrant.
Each, \$.25; per dozen, \$2.50

— **Stelleriana** (Old Woman). A most attractive plant for either the rockery or covering bare spaces in the border, as it is of trailing habit. Foliage is deeply cut of a silvery white, covered with fur during the entire season. Grown only for its foliage.....Each, \$.15; per dozen, \$1.50

ASCLEPIAS TUBEROSA (Butterfly Weed or Swallow Wort). Very showy plants which, if thick, will grow about 2 feet high, flowering during July and August, followed by a seed pod resembling an Okra, which opens in September, showing a white woolly substance.

Each, \$.15; per dozen, \$1.50
Seeds No. 8150..Packet, .10

AUBRETIA (False Rock Cress). One of the most charming and useful plants for wall gardens or the rockery, or in the herbaceous border. The richness of its colors and the perfect mat of silvery glaucous foliage make it very valuable, but in May, when it is entirely covered with flowers, it is a picture of loveliness.

- **Graeca.** VioletEach, \$.30; per dozen, \$3.00
- **Deltoides.** Bright blue.....Each, .30; per dozen, 3.00
- **Lavender.** Large, clear lavender flowers, neat compact habit.....Each, .35; per dozen, 3.50
- **Leichtlinii.** Bright reddish crimson.....Each, .35; per dozen, 3.50
- **Violet Queen.** Rich violet purple flowers.....Each, .35; per dozen, 3.50
- **All Shades Mixed**.....Each, .25; per dozen, 2.00
- **New Large Flowering Hybrids.** Seeds only, No. 8250Packet, .25

BAPTISIA AUSTRALIS (False Indigo). A robust growing plant, attaining a height of 5 feet, with dark green deeply cut foliage and dark blue Lupin-shaped flowers, in June and July.

Each, \$.20; per dozen, \$2.00
Seeds No. 8260..Packet, .05

BELLIS PERENNIS (English Daisy). The well-known bedding plant for early spring gardens. Splendid for the rockery, hardy borders or as a ground cover under tulips, etc. The type we offer bears monstrous double flowers. Seeds are best sown in July and August, and the seedlings thinned out and kept in a cold frame over winter.

- — **Pink**Each, \$.15; per dozen, \$1.25
Seeds No. 8280..Packet, .10
- — **White**Each, \$.15; per dozen, 1.25
Seeds No. 8275..Packet, .10
- — **Mixed.** Seeds only, No. 8285.....Packet, .10

BETONICA (Bishop's Wort).. Very effective perennial during July and August, with flower spikes 30 inches high, of which 12 inches are covered with lovely sage-like flowers.

- **grandiflora robusta.** Deep pink. Seeds only, No. 8300Packet, \$.25
- **officinalis.** Deep rose. Seeds only, No. 8302.....Packet, .10
- **superba rosea.** Rich shade of pink, grows 2½ to 3 feet tall. Seeds only, No. 8305...Packet, .25

SEEDS AND PLANTS OF PERENNIALS

- BOCCONIA CORDATA (Plume Poppy).** A stately growing plant reaching a height of 6 to 8 feet. Excellent for the rear of borders or in front of tall shrubbery. Large-lobed, heart-shaped leaves with silvery under-surface, and flower plumes of a pretty green color.
Each, \$.20; per dozen, \$2.00
Seeds No. 8325..Packet, .10
- BOLTONIA (False Chamomile).** Strong growing plants growing fully 6 feet tall, resembling the Michaelmas Daisies and appear during September and October. They should be lifted each spring and separated.
- **asteroides.** Purest white.....Each, \$.15; per dozen, \$1.50
Seeds No. 8350..Packet, .15
 - **latisquama.** Lavender pink.....Each, \$.15; per dozen, 1.50
Seeds No. 8355..Packet, .15
 - **latisquama nana.** A compact form of the above. Height, 4 feet..Each, \$.25; per dozen, 2.25
- CALLIRHOE INVOLUCRATA (Poppy Mallow).** A rock garden plant of prostrate habit with rosy crimson cup-shaped flowers. June until frostEach, \$.20; per dozen, \$1.75
Seeds No. 8375..Packet, .10
- CAMPANULA (Bell Flower).** The smaller species of bell-flowers have a dainty simplicity of beauty that has made them famous. From these range upward a number of taller species until we have the towering Chimney Bell-flower or Campanula Pyramidalis. They give us a blue flower for almost every situation, moist or dry, sunny or shaded, and the flowers are produced in summer drought, when the color is needed for cool effects and when fine flowers are always at a premium. Valuable for cut flowers.
- **alliaraefolia.** Creamy white flowers in July. Two feetEach, \$.15; per dozen, \$1.50
Seeds No. 8380..Packet, .10
 - **calycanthema (Cup and Saucer).** A biennial which must be re-planted each year. Flowering season, June and July. Height, 3 to 4 feet. Flowers pure white, delicate pink and bluish purple.
Each, \$.25; per dozen, \$2.50
 - — **Delicate Pink.** Seeds No. 8470.....Packet, \$.15
 - — **Pure White.** Seeds No. 8475.....Packet, .15
 - — **Bluish Purple.** Seeds No. 8480.....Packet, .15
 - — **All Shades Blended.** Seeds No. 8485.....Packet, .15
 - **carpathica (Carpathian Hair-Bell).** A dwarf variety for the rock garden, covered during July and August with large blue cup-shaped flowers. Nine inches...Each, \$.15; per dozen, \$1.50
Seeds No. 8385..Packet, .10
 - — **alba.** A white variety of the preceding.....Each, \$.15; per dozen, 1.50
Seeds No. 8390..Packet, .10
 - **glomerata dahirica.** Robust growing and very floriferous variety with clusters of violet purple flowers on erect stems. Eighteen inches high. June to August..Each, \$.20; per dozen, \$2.00
 - — **superba.** Dark violet, late flowering.....Each, .25; per dozen, 2.50
 - **grandis.** Highly desirable species for the border. The flower stems issue from a tuft of rich green foliage and attain a height of 2 to 3 feet. They are covered nearly the whole length with flat, pale blue flowers. July and August.....Each, \$.25; per dozen, \$2.50
 - **lactiflora.** A variety growing to a height of 4 feet which branch out to a broad head. During June and July the entire upper part of the plant is hidden by the profusion of large light blue flowersEach, \$.20; per dozen, \$2.00
 - — **alba.** Pure white form of the foregoing.....Each, .20; per dozen, 2.00
Seeds No. 8415..Packet, .25
 - **latifolia macrantha.** Large deep purple flowers in July and August. Two and one-half feet.
Each, \$.20; per dozen, 2.00
Seeds No. 8429..Packet, .25
 - — **Van Houttei.** A distinct and attractive variety. Drooping, deep blue, tubular flowers are freely borne on graceful, slender stems. Two feet. June to August.
Each, \$.35; per dozen, \$3.50
 - **Medium (Canterbury Bell).** Well-known and popular favorite. Invaluable for making a bright display during June. Two feet. Can be supplied in blue, white and pink.
Each, \$.15; per dozen, \$1.50
 - — **Pink.** Seeds No. 8450.....Packet, .05
 - — **Pure White.** Seeds No. 8455.....Packet, .05
 - — **Bluish Purple.** Seeds No. 8460.....Packet, .05
 - — **All Shades Blended.** Seeds No. 8465.....Packet, .05
 - **persicifolia (Peach Bells).** Stately border plants of unusual beauty. Clear, deep blue flowers, on slender stems, often growing 3 feet high. JuneEach, \$.18; per dozen, \$1.75
Seeds No. 8400..Packet, .25
 - — **alba.** Pure white form of the above.....Each, \$.20; per dozen, 2.00
Seeds No. 8405..Packet, .25
 - **Pusilla Miss Willmott.** One of the most valuable introductions of recent years. The flowers are cup-shaped and slightly reflexed at the mouth, about one inch in length and one-half inch across, and are borne on a multitude of stems 6 to 8 inches in height. The color is pale luminous blue. For massing on the rock garden or front of the border it has few equals.
Each, \$.50; per dozen, \$5.00

SEEDS AND PLANTS OF PERENNIALS

CAMPANULA (Continued)

- *pulloides*. A first-class rock plant with deep purple tubular flowers. Six inches. June and July.
Each, \$.35; per dozen, \$3.50
- *pyramidalis* (Chimney Bell-Flower). The tallest of all, growing from 5 to 7 feet in height, and being dressed with clear blue flowers from August until October. Each, \$.20; per dozen, \$2.00
Seeds No. 8430..Packet, .10
- — *alba*. Pure white.....Each, \$.20; per dozen, 2.00
Seeds No. 8435..Packet, .10
- *trachaeleum*. Purple bell flowers in June and July. Three feet high.
Seeds only, No. 8440..Packet, .10

CARNATION GLORY. A new hardy outdoor Carnation, which produces in June numberless flowers equal to the finest hothouse Carnation, and possessing a pleasing fragrance. Seed limited. Seeds only, No. 8520.....Packet, \$.50

- **Hardy Carnation.** Under this name we are offering the choicest strain of Hardy Pinks. A strain which we are sure is superior to any other ever offered. Seeds only, No. 8525..Packet, \$.25

CARYOPTERIS MASTACANTHUS (Blue Spiraea). A compact shrub-like perennial producing trusses of lavender purple flowers from September until cut down by frost. The foliage is a peculiar grayish green, making the entire effect very odd and beautiful. Height, 2 to 3 feet.
Each, \$.25; per dozen, \$2.50

CASSIA MARYLANDICA (American Senna). A bushy plant with beautiful pinnate light green foliage, and large panicles of bright yellow, curiously shaped flowers in great abundance during July and August. Sun-loving and in a sandy soil reaching a height of 3 to 4 feet. A striking plantEach, \$.20; per dozen, \$1.75
Seeds No. 8535..Packet, .10

CENTAUREA (Cornflowers). Desirable plants for the hardy border or rockery. Will thrive in all kinds of soil.

- *montana*. A handsome border plant, with slightly woolly leaves and large blue flowers. 1½ foot. June to September.....Each, \$.15; per dozen, \$1.50
Seeds No. 8555..Packet, .10
- *montana alba*. A white form of the foregoing.....Each, \$.15; per dozen, 1.50
- *macrocephala*. Gigantic yellow flowers; blooms freely during July and August; effective in the border or for cutting.....Each, \$.20; per dozen, \$1.75
- *nigra hirta variegata*. One of the most effective variegated foliage plants. The spiny leaves are distinctly margined golden on a deep green surface, and in June the plants have pink Sweet Sultan-like flowers. Space, 10 inches.....Each, \$.20; per dozen, \$2.00
- *ruthenica*. A graceful plant, large yellow flowers in July. Three feet.
Each, .20; per dozen, 2.00
Seeds No. 8565..Packet, .10

CENTRANTHUS (Valerian). An old-fashioned border plant producing bold clusters of flowers during June and July. Height, 4 to 5 feet.

- *ruber*. Purplish red.....Each, \$.20; per dozen, \$1.75
- — *albus*. WhiteEach, .20; per dozen, 1.75

CERASTIUM TOMENTOSUM (Snow in Summer). A low-growing hardy plant with silvery fur-coated foliage and white flowers. Excellent for rockeries or edging borders.
Each, \$.15; per dozen, \$1.50
Seeds No. 8575..Packet, .15

CHELONE (Shell Flower). Stately and handsome plants growing about 2 feet high and producing stout spikes, of which the upper part is dressed with Snapdragon-like flowers. Space, one foot. Flowers in July and August.

- *glabra*. Pure white.....Each, \$.20; per dozen, \$1.75
- *Lyonii*. Deep pink.....Each, .20; per dozen, 1.75
Seeds No. 8610..Packet, .25

CHRYSANTHEMUMS (Hardy). The best of all flowers for late autumn. The later varieties will often be in bloom after the snow is on the ground, and even at that late time are attractive and useful for cutting. When planted in masses they give life and color in the garden long after the other flowers are forgotten. We have selected the following varieties as the best and showiest for the garden:

Old-Fashioned Pompom Chrysanthemums. Under the above heading we offer what is also known as Button Chrysanthemum.

Donald. Cream pink with bronze center.

Golden Climax. Rich golden yellow.

Inez. Rich bronzy red.

Inga. Blood red.

Tiber. Bronze.

Waco. Pure white.

Zenobia. Golden yellow.

All of the foregoing: Each, \$.20; Per Dozen, \$2.00

Baby Pompom Chrysanthemum. The flowers of this class are very small and formed just like a button. They are very effective in the garden, and especially so when cut for a vase.

Golden West. Golden yellow (R Light Cadmium)Each, \$.20; per dozen, \$2.00

HARDY CHRYSANTHEMUMS (Continued)

Medium-sized Flat Chrysanthemum. In this class we offer two sorts, but as they are clean and attractive we would like to see them in every garden. As indicated, the flowers are flat, showing no center and measure about 2½ inches across.

Lillian Doty. Delicate shell-pink.....Each, \$.25; per dozen, \$2.50

Queen of the Whites. Glistening white.....Each, .20; per dozen, 2.00

Giant Flat Garden Chrysanthemums. In size they are equal to some of the fair-sized Japanese Chrysanthemums, measuring invariably from 4 to 5 inches across.

Dorothy. Pure white.

Cranfordia. Light yellow.

Fedora. Lovely pink with white center.

Kathline Thompson. Coppery golden.

Lilac Cap. Deep lilac.

Lucifer. Deep crimson.

Petite Louise. The largest of any in this class; beautiful delicate pink flushed with white, delicate and showy.

Purple Cap. Purple in effect.

All of the foregoing: Each, \$.25; Per Dozen, \$2.50

New Japanese Garden Chrysanthemum (With Incurved Blooms). The equal in form to the choicest hothouse varieties. If slightly disbudded the flowers easily measure 5 inches across.

Cranford Yellow. Light yellow.

Cranford Pink. Delicate shell pink.

Both of the foregoing: Each, \$.25; Per Dozen, \$2.50

CHRYSANTHEMUM ARCTICUM. A pretty border or rock plant with finely divided foliage, and pale pink daisy-like flowers throughout the summer. One foot..Each, \$.35; per dozen, \$3.50

CHRYSANTHEMUM MAXIMUM. A very free flowering hardy plant of the easiest culture, flowering from August until the first hard frost. Flowers resemble a monstrous White Daisy.

— **King Edward VII.** One of the newest Shasta Daisies, glistening white. Height, 2 feet.

Each, \$.20; per dozen, \$2.00

Seeds No. 8625..Packet, .25

— **laciniatum (Lace-Petaled Shasta Daisy).** Seeds only, No. 8627.....Packet, .25

COREOPSIS GRANDIFLORA. One of the prime favorites of the old-fashioned gardens. The large Daisy-like golden yellow flowers are borne on long stems and of course are excellent for cutting. Blooming from June until autumn makes this one of the most valuable plants for the hardy garden.....Each, \$.15; per dozen, \$1.50

Seeds No. 8650..Packet, .10

DAPHNE CNEORUM. A shrub of spreading prostrate habit, remaining green throughout the winter. From June until late fall it bears rich pink flowers which are delightfully fragrant. Best adapted to the rockery.....Each, \$.75; per dozen, \$6.50

DIANTHUS (Maiden Pink). A bright little plant covered with small single sweet-scented flowers throughout the summer. One of the most valuable subjects for wall or rock gardens.

— **deltoides.** Rose pink.....Each, \$.15; per dozen, \$1.50

Seeds No. 8690..Packet, .10

— **— albus.** Pure white.....Each, \$.15; per dozen, 1.50

Seeds No. 8695..Packet, .10

— **— Brilliant.** Deep rich pink.....Each, \$.15; per dozen, 1.50

— **latifolius atrococcineus fl. pl. (Everblooming Double Sweet William).** Deep crimson double flowers in great profusion.....Each, \$.15; per dozen, \$1.50

Seeds No. 8698..Packet, .10

DICTAMNUS (Gas Plant). A favorite hardy plant possessing a peculiar fragrance in both flowers and foliage. The flower resembles the Spider Plant to a degree. Height, 2 feet.

— **Fraxinella.** Purplish red.....Each, \$.20; per dozen, 1.75

Seeds No. 8700..Packet, .05

— **— alba.** Pure white.....Each, \$.20; per dozen, 1.75

Seeds No. 8705..Packet, .10

DIGITALIS (Foxglove). One of the most popular plants in the border to-day. From a mass of leaves they throw up a flower spike, tall and stately, to a height of from 4 to 6 feet.

— **ambigua.** Yellow veined brown. Two to 3 feet. June and July...Each, \$.15; per dozen, \$1.50

— **Gloxinæflora.** A strain of finely spotted varieties. We offer them in white, purple and pink.

Each, \$.15; per dozen, \$1.50

— **— White.** Seeds No. 8725.....Packet, .05

— **— Pink.** Seeds No. 8730.....Packet, .05

— **— Purple.** Seeds No. 8735.....Packet, .05

— **— All Colors.** Seeds No. 8740.....Packet, .05

— **lanata.** Creamy white, 2 to 3 feet. June and JulyEach, \$.20; per dozen, 1.75

— **Monstrosa.** Large flowers of cup shape, unusually tall and effective in the garden. All shades. Seeds only, No. 8745.....Packet, \$.10

DODECANTHEON MEDIA (American Cowslip). A very pretty plant for a damp spot or naturalizing in the woods. Stems about one foot high, bearing 8 to 12 Cyclamen-like flowers of pink and white. Rare but easily grown.....Each, \$.20; per dozen, \$1.75

Seeds No. 8748..Packet, .15

SEEDS AND PLANTS OF PERENNIALS

DIELYTRA (Bleeding Heart). Most showy old-fashioned plants; great favorites in old gardens and formed great clumps there. The name is from the curious heart-shaped blossoms, with a drop of blood below, as seen on *Dielytra spectabilis*.

- *formosa*. Combines fern-like grace with a profusion of pink flowers. One foot high. May to August Each, \$.20; per dozen, \$1.75
- *spectabilis* (Bleeding Heart) Each, .20; per dozen, 1.75

Heatherhome's Delphiniums (Hardy Larkspur.)

It is almost impossible to convey any thing like an adequate description of the improved Delphiniums by word, or even by illustrations, as their greatest charm lies in the wonderful stateliness of growth, and the rich colors and tints of their striking flowers.

Surely, there is nothing to compare with the Delphinium in blue, and, for their value in the hardy bed or border, they are unsurpassed.

The plants will thrive in any good garden soil, but will do especially well in a deep rich, well-drained one. After the first bloom is past, cut the flower stems away and a second season will follow.

Our list is the most complete of any offered to the American gardening public.

- **Amos Perry.** One of the finest yet introduced. The flowers are large and semi-double, of a rich, rosy mauve, lined with sky-blue, and are borne on massive spikes. Six feet high.

Each, \$.75; per dozen,	\$7.50
Seeds No. 8651..Packet,	.25
- **Andrew Carnegie.** Double flowers of soft lilac, with blue center. Seeds only, No. 8652..Packet, .25
- **Belladonna.** The daintiest of all Larkspurs. The graceful spikes, $4\frac{1}{2}$ feet high, are dressed with large single heavenly blue flowers, with a white center Each, \$.25; per dozen, \$2.50

Seeds No. 8682..Packet,	.25
-------------------------	-----
- **Belladonna Hybrids.** Improved types of the above Each, \$.35; per dozen, 3.50

Seeds No. 8685..Packet,	.15
-------------------------	-----
- **Belladonna semi-plena.** A semi-double form of the above, having larger flowers. A very effective sort Each, \$.35; per dozen, \$3.50
- **Capri.** Graceful many-branched spikes of single azure blue flowers. Four to 5 feet.

Each, \$.75; per dozen,	\$7.50
--------------------------	--------
- **chinense.** A free-flowering, low-growing type with finely cut foliage and gentian-blue flowers. Height, $1\frac{1}{2}$ feet..... Each, \$.15; per dozen, \$1.50

Seeds No. 8665..Packet,	.05
-------------------------	-----
- **chinense alba.** Pure white form of the above..... Each, \$.15; per dozen, 1.50

Seeds No. 8670..Packet,	.05
-------------------------	-----
- **Fanny Stormouth.** A free-flowering variety of branching habit; pale blue flowers. Height, $3\frac{1}{2}$ feet Each, \$.35; per dozen, \$3.50
- **formosum.** Strong-growing form with deep, gentian-blue flowers with white eye. Four feet.

Each, \$.20; per dozen,	\$1.75
Seeds No. 8675..Packet,	.10
- **formosum coelestinum.** Sky-blue flowers. Seeds only, No. 8680.....Packet, .15
- **Hugo Poortman.** Large pale blue, semi-double flowers. Four to 5 feet.

Each, \$.50; per dozen,	5.00
Seeds No. 8653..Packet,	.25
- **K. Th. Caron.** Bright gentian-blue with white center. Four to 5 feet.

Each, \$.50; per dozen,	5.00
Seeds No. 8655..Packet,	.25
- **King of Delphiniums.** An outstanding variety of great merit. Tall, stately spikes of deep purple flowers with a white eye. Five to 6 feet..... Each, \$.75; per dozen, \$7.50

Seeds No. 8654..Packet,	.25
-------------------------	-----
- **Lamartine.** Single dark blue, Two and one-half feet Each, \$.35; per dozen, 3.50
- **Lize van Veen.** Immense pure blue single flowers. Four to 5 feet.. Each, .75; per dozen, 7.50
- **Moerheimi.** The only pure white tall Larkspur. Massive spikes of large snow-white flowers. Four to 5 feet..... Each, \$.50; per dozen, \$5.00
- **Mrs. Thomson.** Erect, branching spikes, covered with clear blue flowers; very free flowering. Three and one-half feet..... Each, \$.50; per dozen, \$5.00
- **Nassau.** Large pure sky-blue flowers. Four feet Each, .50; per dozen, 5.00
- **Pauli.** A new variety similar to *D. Chinense*, growing about $1\frac{1}{2}$ to 2 feet in height, and bearing large pure white flowers which are very sweet scented. Seeds only, No. 8686...Packet, \$.25
- **Rev. E. Lascelles.** Large, double-deep blue flowers with white center. One of the finest varieties yet introduced. Seeds only, No. 8687.....Packet, \$.50
- **Persimmon.** Strong, erect branching variety, with single sky-blue flowers with a yellow eye.

Each, \$.50; per dozen,	\$5.00
--------------------------	--------
- **Queen Wilhelmina.** Very vigorous variety with pale blue double flowers.

Each, .50; per dozen,	5.00
Seeds No. 8656..Packet,	.25
- **Theodora.** Loose and elegant spikes of cornflower blue Each, \$.50; per dozen, 5.00
- **Exhibition Mixed.** Seeds gathered from only the choicest of the above-named varieties, and blended to make the finest strain imaginable Seeds only, No. 8660.....Packet, \$.25

SEEDS AND PLANTS OF PERENNIALS

- DORONICUM PLANTAGINEUM EXCELSUM.** A splendid little plant; one of the first to bloom in the spring, with bright yellow Daisy-like flowers. Height, 2 to 2½ feet.
Each, \$.20; per dozen, \$2.00
- ECHINOPS RITRO (Globe Thistle).** Valuable plant with Thistle-like foliage, and heads of glistening blue flowers on stout stems. Height, 3½ feet. July and August.
Each, \$.20; per dozen, \$1.75
Seeds No. 8750..Packet, .10
- EREMURUS HIMALAICUS.** From a rosette of Yucca-like foliage rises in majestic grandeur mammoth flower stalks which attain a height of from 6 to 8 feet. The miniature flowers of peach-pink encircle the stem fully two-thirds of its entire length. They require a deep, well-manured soil and a sheltered situation.....Each, \$1.00
- ERIGERON.** Excellent plants for cutting, bearing Aster-like flowers in great profusion.
— **aurantiacus.** Flowers of orange scarlet on stems a foot in height..Each, \$.20; per dozen, \$1.75
Seeds No. 8757..Packet, .25
— **Quakeress.** Large violet-blue flowers on branching stems; a continuous bloomer. Height, 2 feet. June to October.....Each, \$.25; per dozen, \$2.50
— **speciosus.** Large, handsome lilac-purple flowers with orange center; flowers all summer. Three feet highEach, \$.20; per dozen, \$2.00
Seeds No. 8765..Packet, .10
- ERINUS ALPINUS.** An Alpine plant of great value for the rock or wall garden. Growing about 3 inches high, it forms pretty rosettes of foliage, and in early summer racemes of rosy-purple flowersEach, \$.25; per dozen, \$2.50

— **amethystinum.** Stems and flower-heads of amethyst blue. Three feet high. July and August.
Each, \$.35; per dozen, \$3.50
Seeds No. 8770..Packet, .15
— **giganteum (Ivory Thistle).** Foliage and stems glistening white. Seeds only, No. 8772..Packet, .25
— **maritimum.** Whitish glaucous flower-heads and prickly leaves of the same color. One foot.
Each, \$.25; per dozen, 2.50
— **Oliverianum.** Large, rich blue flower-heads and stems. Three feet. July and August.
Each, \$.35; per dozen, 3.50
— **planum.** Small lavender-blue flower-heads and glistening stems. Two to 3 feet. July and August.
Each, \$.20; per dozen, 2.00
Seeds No. 8775..Packet, .10
- EUPATORIUM AGERATOIDES.** A plant resembling the Ageratum in foliage and flower, producing during July a mass of small white flowers. Height, 4 feet.
Each, \$.15; per dozen, \$1.50
— **Fraseri.** Resembling the above, but later in flowering. Seeds only, No. 8753.....Packet, .10
- EUPHORBIA COROLLATA (Spurge).** The white and green sprays of this plant are used like those of Gypsophila to give grace and harmony to bouquets. In the garden it forms a spreading mass, about 2 feet high, composed of numerous much-branched stems and myriads of paper-white bracts enveloping small flowers.....Each, \$.20; per dozen, \$1.75
- FUNKIA (Plantain or Day Lily).** A most attractive group of plants of tropical appearance, lending themselves to any number of uses. Excellent for edging walks or borders, for groups in the shrubbery, or in masses by the water side. Will do particularly well in partial shade.
— **coerulea.** Broad green leaves and flowers of a dainty shade of mauve in July.
Each, \$.20; per dozen, \$1.75
— **media undulata variegata.** The best variety for edging. Lilac flowers in July, leaves only 10 inches longEach, \$.20; per dozen, \$1.75
— **robusta elegans folia variegata.** Mauve flowers appearing during July above a solid mass of broad variegated leaves.....Each, \$.25; per dozen, \$2.50
— **subcordata grandiflora.** Green foliage and spikes of large, pure white fragrant flowers. One and one-half feetEach, \$.20; per dozen, \$2.00
- GAILLARDIA GRANDIFLORA (Blanket Flower).** One of the most glorious of our true "old fashioned flowers." Flowering uninterrupted from June until October in many rich and brilliant colors. The old flower-stem should be removed as soon as the flowers fade. Height about 2 feetEach, \$.15; per dozen, \$1.50
Seeds No. 8785..Packet, .10
— **Heatherhome's Exhibition Strain.** A new selected strain with enormous flowers of stout habit. Seeds only, No. 8784.....Packet, \$.25
- GALEGA (Goats' Rue).** In July and August the Galega bears many trusses of sweet-scented, pea-shaped flowers that are useful for cutting.
— **officinalis.** Erect branching stems covered with bright lilac-colored flowers. Two and one-half to 3 feet.....Each, \$.20; per dozen, \$2.00
— **officinalis alba.** A white variety.....Each, .20; per dozen, 2.00
Seeds No. 8790..Packet, .10
— **officinalis rosea.** Deep pink. Seeds only, No. 8795Packet, .10

SEEDS AND PLANTS OF PERENNIALS

GAURA LINDHEIMERI (Waving Butterfly). Very pretty border plant with bold spike of white flower heads, from July till frost. Valuable for cutting. Height, 6 feet.

Each, \$.25; per dozen, \$2.50
Seeds No. 2292..Packet, .10

GENTIANA ACAULIS (Garden Gentian). Large, erect bell-shape blue flowers, on stems 6 inches tall. Blooms throughout the season. Seeds only, No. 8797.....

Packet, \$.25

GERANIUM (Crane's Bill). This plant, while not so showy in blossom, is much more graceful in foliage than the annual known by the same name. June until August it has an abundance of large blood red flowers. Height, 1½ feet.

— **sanguineum.** Blood red.....Each, \$.20; per dozen, \$1.75

— **album.** A white variety of the above.....Each, .20; per dozen, 2.00

GEUM (Avens). Attractive dwarf growing plants of compact tufted habit and long blooming season.

— **coccineum.** Brilliant scarlet flowers from May until September. Height, 1½ feet.

Each, \$.15; per dozen, \$1.50

— **coccineum Mrs. Bradshaw.** A new variety of recent introduction. Large, double rich scarlet flowers on stout branching stems in the greatest profusion, from May until September. Invaluable for cutting. Height, 1½ to 2 feet.....

Each, \$.25; per dozen, \$2.50
Seeds No. 8805..Packet, .25

GLOBULARIA TRICOSANTHA (Globe Daisy). Tufts of shiny green foliage, bearing numerous globular heads of pale flowers. A first-rate rock plant. Six inches. June and July.

Each, \$.25; per dozen, \$2.50

GYPSOPHILA. Very valuable free flowering plants, varying from dwarf trailing species to tall robust varieties, often 3 or 4 feet in height.

— **cerastioides.** Dense mats of foliage, studded with large lilac flowers, veined pink.

Each, \$.20; per dozen, \$1.75

— **paniculata (Baby's Breath).** Covered with myriads of small white flowers during July and August. Invaluable for cutting. Height, 2 to 3 feet.....

Each, \$.20; per dozen, \$1.75
Seeds No. 8850..Packet, .10

— **paniculata fl. pl.** A double form of the above.....

Each, \$.30; per dozen, 3.00
Seeds No. 8855..Packet, .25

— **repens.** A strong trailer, of great value in the rock garden. June and July.

Each, \$.15; per dozen, 1.50

— **repens monstrosa.** A robust variety of the foregoingEach, .35; per dozen, 3.50

Hardy Ornamental Grasses

Arundo Donax. Stout spikes resembling our field corn, grow to a height of 20 feet, having broad green leaves, of a very light color.....

Each, \$.30; per dozen, \$3.00
Seeds No. 8810..Packet, .10

— **variegata.** Green and white foliage.....

Each, \$.30; per dozen, 3.00
Seeds No. 8815..Packet, .15

Elymus Glaucus (Blue Lime Grass). One of the most useful sort for the border, as the bluish foliage, in connection with flowering perennials, helps to enhance the effect. Extremely narrow glaucous foliage; grows a height of 3 feet

Each, \$.25; per dozen, \$2.50

Erianthus Ravennæ (Hardy Pampas). Ten to 12 feet high, frequently throwing 30 to 50 plume-like flower-heads; the foliage is narrow and grass-like

Each, \$.25; per dozen, \$2.50
Seeds No. 8820..Packet, .10

Eulalia Gracillima. Of graceful habit, with very narrow foliage, of a bright green color, with a silvery mid-rib. Grows 4 feet high.....

Each, \$.25; per dozen, \$2.50
Seeds No. 8825..Packet, .10

— **Japonica Variegata.** Long, narrow leaves striped green, white and often pink and yellow, feathery flower-spikes. Four to 6 feet high.....

Each, \$.25; per dozen, \$2.50
Seeds No. 8830..Packet, .15

— **zebrina.** The long blades of this variety are marked with broad yellow bands across the leaf, producing a zebra color effect.....

Each, \$.25; per dozen, \$2.50
Seeds No. 8835..Packet, .15

Festuca Glauca (Blue Fescue). Excellent for edging hardy borders or on the rock garden. Dwarf in habit, growing but 8 or 10 inches, send up blades of a glaucous hue.

Each, \$.25; per dozen, \$2.50

Gynerium Argenteum (Pampas Grass). Its silvery gigantic plumes are produced on stems 8 to 10 feet high

Each, \$.25 and \$.50
Seeds No. 8840..Packet, .10

Phalaris Arundinacea Variegata (Ribbon Grass). Excellent for edging borders or shrubberies. The beautiful variegated grass-like foliage gracefully droops over to again touch the ground. The variegated color is exceedingly bright in the spring, and produces a charming effect when associated with plants of sombre green foliage

Each, \$.20; per dozen, \$2.00

Stipa Pennata. One of the finest-leaved grasses, deep green color, 4 feet high. Seeds only, No. 8845.

Packet, \$.10

SEEDS AND PLANTS OF PERENNIALS

- HARDY FERNS.** We carry a number of varieties of these most desirable plants, for damp, shady places, in stock. A list with description and prices will be mailed upon request. If the selection is left to us, we can supply desirable plants at Each, \$.20; per dozen, \$2.00
- HARDY BAMBOO METAKE.** A strong growing variety with broad handsome leaves. Eight to 15 feet high..... Each, \$2.00
- HARDY HEATHER (Our Main Specialty).** Heather, contrary to general opinion, will grow and thrive in all sections of the United States, if given half a chance; in fact, there are sections in which it has become established and rivals the Heaths of Scotland. Heather prefers a fairly moist soil and will stand either full sun or partial shade; a position should be selected where it will not be exposed to sweeping winds. Heather is also valuable if planted in the hardy border or with Rhododendrons.
- Calluna Vulgaris (Common Purple Scotch Heather).** Spreads about 15 inches and grows from 12 to 18 inches tall. August..... Each, \$.35; per dozen, \$3.50
- **Vulgaris Alba.** A white form of the above..... Each, .50; per dozen, 5.00
- Erica Stricta.** Compact spreading variety with rose pink flowers in August. Each, .35; per dozen, 3.50
- Bruckenthalia Spicifolia.** The earliest of all to bloom, showing its flowers in May and June. Compact and spreading..... Each, \$.35; per dozen, \$3.50
- Menziesia polifolia (Irish Heath).** Splendid compact growing type with large globular flowers of bright rose. Attractive and very free blooming. July to September. Each, \$.50; per dozen, \$5.00
- **polifolia alba.** White form of the foregoing..... Each, .50; per dozen, 5.00
- **polifolia bi-color.** White, shaded rose..... Each, .50; per dozen, 5.00
- HELENIUM (Sneeze Wort).** A glorious fall flowering plant, thriving in any soil or situation. Useful for cutting, as the flowers will last a very long while.
- **autumnale.** Clear golden yellow. August and September. Five feet. Each, \$.20; per dozen, \$1.75
- **autumnale Riverton Beauty.** Rich lemon yellow with a cone of black. Three and one-half feet. August and September..... Each, \$.25; per dozen, \$2.50
- Seeds No. 8866.. Packet, .15
- **autumnale Riverton Gem.** Old gold flowers from August until October. Five feet. Each, \$.20; per dozen, 1.75
- **autumnale striatum.** Yellow flowers, striped and blotched crimson. July and August. Four feet. Each, \$.25; per dozen, \$2.50
- **autumnale superbum.** Clear yellow flowers. Four feet. August... Each, .20; per dozen, 2.00
- Seeds No. 8860.. Packet, .15
- **Bigelowi.** Golden yellow variety, blooming during June. Height, 2 feet. Seeds only, No. 8865. Packet, \$.25
- **pumilum magnificum.** Low-growing variety with golden yellow flowers. Two feet. July and August Each, \$.20; per dozen, \$1.75
- HELIANTHEMUM (Rock or Sun Rose).** Valuable group of rock plants doing especially well in a sunny position.
- **Clara Middleton.** Orange scarlet, flowers throughout the summer. Height, 10 inches. Will spread about 18 inches..... Each, \$.35; per dozen, \$3.50
- **Mrs. Earle.** Double fiery scarlet..... Each, .40; per dozen, 4.00
- **The Bride.** Single white. Valuable for edging borders Each, .40; per dozen, 4.00
- HELIANTHUS (Sunflower).** Charming plants for the border. Graceful and elegant when in bloom and of the easiest possible culture.
- **multiflorus fl. pl.** A stout, bushy plant with large double golden-yellow flowers. July and August. Four feet..... Each, \$.20; per dozen, \$2.00
- **orgyalis.** Small golden-yellow Cosmos-like flower in September. A variety with long, narrow, drooping foliage. Five to 7 feet. Quite a distinct plant Each, \$.20; per dozen, \$2.00
- **rigidus.** Bushy plants with golden-yellow flowers from July on. Five feet. Each, \$.20; per dozen, 2.00
- **rigidus Wolley Dod.** Deep golden-yellow flowers in September. Six feet. Each, .20; per dozen, 2.00
- HEMEROCALLIS (Day Lily).** The day lilies are very free-flowering ornamental plants for the border, shrubbery, edgings or for grouping. We have found them decorative when planted by the water-side.

Seeds No. 8900.. Packet, .10
- **— Crimson Eye.** White with crimson eye..... Each, \$.20; per dozen, 2.00
Seeds No. 8899.. Packet, .10
- **Moscheutos Mixed.** Seeds only, No. 8898..... Packet, .10
- **Giant Red.** Enormous flowers of bright red. Our own savings. Seeds only, No. 8901.
Packet, .25
- HYPERICUM (St. John's Wort) MOOSERIANUM.** Free-flowering, shrub-like plant of graceful habit, with slender drooping stems and large yellow flowers during the entire season. Height, 2 feet Each, \$.25; per dozen, \$2.50

HEATHERHOME'S FAMOUS HOLLYHOCKS

The Hollyhock has long been one of the most popular of "Old Fashioned" flowers, their tall, stately flower spikes making them a striking feature during July and August.

Hollyhocks will do best in a deep, well-manured soil.

We offer these popular plants in both single and double flowers in the following colors: carmine-rose, white, yellow, rose-salmon, pink and crimson, at, Each, \$.20; per dozen, \$2.00

We also offer both double and single mixed at, Each, .20; per dozen, 1.75

Growing Hollyhocks from seed has long been popular, but the greatest disappointment was always the failure of the seed to come true to color. We have at last succeeded in obtaining seed which will give the largest percentage of true colors of any on the market.

SINGLE FLOWERS

8945. — Pure White Packet, \$.10
8950. — Clear Yellow Packet, .10

HEATHERHOME'S HARDY IRIS

Our collection of Iris is the most up to date of any American house, and we can assure our patrons that the stock we will send out this season will be the finest we have ever grown.

GERMAN IRIS. The most popular of all on account of their easy culture. The flowers have the true Fleur-de-Lis form, and are of exquisite coloring, combining the richest and most delicate tints, and they should be planted in a well-drained sunny position.

Aurea. Pure yellow	Each, \$.20; per dozen, \$2.00
Darius. Yellow, with falls of lilac.....	Each, .20; per dozen, 2.00
Florentina alba. Pure white.....	Each, .20; per dozen, 2.00
Gloris de Hillegom. Light delft blue.....	Each, .20; per dozen, 2.00
Gracchus. Upper petals golden, lower petals rich mahogany brown.....	Each, .20; per dozen, 2.00
Honorable. Upper petals yellow, lower petals crimson	Each, .20; per dozen, 2.00
Iris King. Yellow, falls of velvety purple, margined gold	Each, .50; per dozen, 5.00
Jeanne D'Arc. Pure white.....	Each, .20; per dozen, 2.00
Kharput. Deep rich purple; very fine.....	Each, .30; per dozen, 3.00
Leonidas. Soft lavender, lower petals rosy-mauve.....	Each, .20; per dozen, 2.00
Loreley. Crown pale yellow, with falls deep blue.....	Each, .30; per dozen, 3.00
Maori King. Upper petals golden yellow, lower petals chocolate veined white and edged yellow.	

Mithras. Standards pale yellow, falls violet, shaded claret	Each, \$.30; per dozen, \$3.00
Mme. Chereau. White, edged with light blue.....	Each, .50; per dozen, 5.00
Mrs. H. Darwin. Snow white veined purple.....	Each, .20; per dozen, 2.00
Mrs. Neubrunner. Pure golden yellow.....	Each, .20; per dozen, 2.00
Mrs. Reuthe. Dwarf white with blue edge.....	Each, .25; per dozen, 2.50
Niebelungen. Standards olive green, suffused yellow, fall deep purple, with creamy-white edges.	Each, .30; per dozen, 3.00

Pallida Dalmatica. The finest of all German Iris, the leaves are broad and massive, while the flower-spikes grow 5 feet high, showing elegantly-formed flowers of delicate clear lavender.

Queen of May. Lavender pink.....	Each, \$.25; per dozen, \$2.50
Rhein Nixe. Standards pure white, falls deep violet blue, with white margin.	Each, .20; per dozen, 2.00

Each, \$.50; per dozen, 5.00

IRIS PALLIDA FOLIA VARIEGATA. Foliage is glaucous green, with broad bands of creamy yellow. It is of free growth, and when established attains a height of 2 to 2½ feet. The flowers are soft lavender.....

JAPANESE IRIS. The grandeur of these Irises surpasses any written description. The large, flat flowers measure 8 to 10 inches in diameter. This class of Iris is somewhat semi-aquatic, for to flourish well it should be planted where it can have abundant moisture. It can be grown successfully in dry locations in the garden, but under those conditions water must be resorted to.

- | | |
|--|--|
| 1. Pure white. | 10. Pure violet, golden center. |
| 2. Pansy violet | 11. Creamy white, veined violet. |
| 3. Cotinga purple. | 14. Ground color, white traced blue. |

Pinks

One of the most popular groups of old-fashioned garden plants, their fragrance and freedom of flowering making them favorites with all lovers of hardy flowers.

Where large quantities of cut bloom are required, one or more beds devoted entirely to Pinks would be invaluable. The flowering period is May and June and the usual height when in flower is 12 to 15 inches.

We have made this indispensable group of popular old-fashioned flowers one for special attention.

They are perfectly hardy, growing freely in any ordinary border and producing an abundance of sweetly scented very double flowers of beautiful colors during May and June. Invaluable for cutting. Height, 12 to 15 inches.

- **Abbotsford.** Deep rose..... Each, \$.15; per dozen, \$1.50
- **Carmen.** Light pink..... Each, .25; per dozen, 2.25
- **Fuerst Bismarck (New).** Bright red..... Each, .25; per dozen, 2.25

- **Paddington.** Deep rose, crimson center..... Each, .20; per dozen, 1.75
- **White Reserve.** Pure white..... Each, .15; per dozen, 1.50

SEEDS AND PLANTS OF PERENNIALS

Heatherhome's Hardy Phloxes

These beautiful hardy border plants are among the most effective for the garden during the summer and early autumn.

Their huge, dome-shaped panicles are sometimes a foot in length and of almost every imaginable color.

Phloxes succeed in almost any ordinary garden soil, enriched with manure, but are much benefited by plenty of water during the growing season.

The flowering season commences early in July and if the first spikes of bloom are removed as soon as over, they will produce a second supply of flowers.

The following list contains the finest existing varieties:

Albion. White variety with faint red eye.....	Each, \$.15; per dozen, \$1.50
Antonin Mercie. A strong-growing variety, bearing large trusses of delicate lavender flowers, with white centers	Each, \$.15; per dozen, \$1.50

SEEDS AND PLANTS OF PERENNIALS

SAXIFRAGA, MEGASEA SECTION. The Saxifragas of this section are distinguished by the large, broad leaves and tall panicles of flower. They form an important group of early spring-flowering plants and are highly decorative in the border or rock garden. They also make excellent pot-plants for the cool greenhouse.

- **Brilliant.** Large handsome leaves, becoming richly tinted in autumn and winter. Flowers purple. One and one-half feet.
- **corrugata.** Dwarf habit, pink flowers.
- **ciliata.** Very distinct, broad green leaves, covered with soft hair. Dense panicles of flesh-colored flowers. Nine inches.
- **Croesus.** Strong grower; red flowers. One and one-half feet.
- **Delia.** Crimson purple. One foot.
- **orbicularis.** Light, rosy flowers on branching stems. One and one-half feet.
- **Puck.** Large pink flowers. One and one-half feet.
- **purpurascens.** Heart-shaped leaves and rosy-purple flowers. One foot.
- **splendens.** Rosy crimson.

The Above Varieties: \$.30 Each; \$3.00 Per Dozen

SCABIOSA. A valuable border plant succeeding well in the sunny position. Valuable for cutting, as they last a long time in water.

- **caucasica.** Lavender-blue flowers, 3 to 4 inches across, on a long, graceful stem. June to September. Three feet.....Each, \$.25; per dozen, \$2.50
Seeds No. 9200..Packet, .15
- **caucasica alba.** White form of the above.....Each, \$.25; per dozen, 2.50
Seeds No. 9210..Packet, .25
- **japonica.** Clear lavender-blue flowers, from July to September. Two feet.
Each, \$.25; per dozen, 2.50
Seeds No. 9215..Packet, .15

SCUTELLARIA BAICALENSIS (Helmet Flower). A perennial resembling "Polemonium." Blooming freely during the entire summer, with beautiful sky-blue flowers. Height, 18 inches.

Each, \$.25; per dozen, \$2.50
Seeds No. 9220..Packet, .25

SEDUM (Stone Crop). Among the most interesting and varied group of plants, and for the rock garden, the most valuable material we have. They are perfectly hardy, and easily grown. Most of the dwarf varieties are of creeping habit and form perfect carpets. They will grow in the driest positions imaginable, and when once established they produce a very beautiful effect.

Dwarf Varieties—

- **acre.** Forms a dense carpet of bright green foliage, covered during May and June with bright yellow flowers.
- **album.** Dark green leaves with white flowers during June.
- **Ewersi.** Purplish pink flowers during August and September. Six inches.
- **Kamschaticum.** Deep green foliage; yellow flowers in June. Eight inches.
- **Kamschaticum variegatum.** Foliage margined creamy white.
- **Hispanicum.** Flowers rosy-white, foliage gray. Three inches.
- **middendorffianum.** Narrow green foliage; yellow flowers.
- **sexangulare.** Dwarf trailer; green foliage and yellow flowers.
- **Sieboldii.** Round, succulent, glaucous foliage, with clusters of bright pink flowers in September.
- **spurium.** Attractive pink flowers. Six inches.
- **spurium coccineum.** A beautiful crimson-flowered variety.

All of the Above Varieties, \$.20 Each; \$2.00 Per Dozen

Erect or Tall Growing Varieties—

- **japonicum macrophyllum.** Forms a compact bush 15 inches high, with pleasing waxy flowers, with light pink centers.
- **maximum atropurpureum.** Dark, bronzy-purple foliage. Fifteen inches.
- **spectabile.** One of the most popular erect-growing varieties, with large, showy, rose-colored flowers, in August and September. Eighteen inches.
- **spectabile brilliant.** An improved form of the above, and really a very valuable acquisition. Similar to spectabile in growth, but bearing very bright amaranth red flower-heads.

All of the Above Varieties, \$.20 Each; \$2.00 Per Dozen

SENECIO CLIVORUM. A splendid plant recently introduced from China, forming a mass of large green foliage and loose-branching heads of bright yellow flowers. It is best suited in low moist situations.....Each, \$.25; per dozen, \$2.50
Seeds No. 9221..Packet, .25

SHORTIA GALACIFOLIA. One of the most beautiful of hardy plants. It forms tufts of oval leaves, which become purple in winter. The flowers, which are borne on slender stems, are bell-shaped, and are either white or very faint pink. It requires a partly-shaded position. Nine to 12 inches. May.....Each, \$.50; per dozen, \$5.00

SEEDS AND PLANTS OF PERENNIALS

- SILENE ALPESTRIS.** An alpine plant producing sheets of starry-white flowers on slender stems. Six inches high. May and June.....Each, \$.20; per dozen, \$1.75
- **Schafra.** A variety producing cushions of bright pink flowers, from July until late in September. Four to 6 inches.....Each, \$.20; per dozen, \$1.75
- SPIREA.** Splendid material for the shady borders or for naturalizing in the woods, as it does well in open situations, providing plenty of moisture is supplied during the dry months.
- **Aruncus.** A majestic variety, growing from 4 to 5 feet tall and producing during June and July long, feathery panicles of white flowers.....Each, \$.20; per dozen, \$2.00
- **filipendula fl. pl.** A variety with fern-like foliage, producing drooping panicles of double creamy white flowers during June and July. Two feet.....Each, \$.20; per dozen, \$2.00
- **palmata.** A free-flowering variety, producing during June and July clusters of deep purple-red flowers. Three feet.....Each, \$.20; per dozen, \$2.00
- STACHYS LANATA (Lamb's Tail).** A very pretty little edging plant; also used for bedding. Forms a dense mass of bright silvery-white, woolly foliage and small clusters of light purple flowersEach, \$.20; per dozen, \$1.75
- STATICE LATIFOLIA (Sea Lavender).** A very valuable perennial, growing 2½ feet high, with branching stems forming a symmetrical mass of blue flowers... Each, \$.20; per dozen, \$2.00
Seeds No. 9225...Packet, .10
- **caspia.** Flowers of tender lavender. Seeds only, No. 9230.....Packet, .25
- **Gmelini.** Lavender. Seeds only, No. 9222.....Packet, .25
- STOKESIA CYANEA (Cornflower Aster).** One of our most valuable and free-flowering perennials, bearing large, bright blue flowers in great profusion from June to October. It is of the easiest possible culture, succeeding in almost any ordinary garden soil. One and one-half feetEach, \$.15; per dozen, \$1.50
Seeds No. 9235...Packet, .10
- **cyanea alba.** Pure white form of the above.....Each, \$.15; per dozen, 1.50
Seeds No. 9240...Packet, .15
- **cyanea pink.** A beautiful shade of lavender pink. A new and rare form.
Each, \$.40; per dozen, 4.00
- **cyanea New Hybrids.** A strain selected from the finest new hybrids. A very rare selection. Seeds only, No. 9242.....Packet, \$.25
- SWEET WILLIAM.** The well-known and free-flowering popular garden flower, so much used in all the old-fashioned gardens.
- — **Single Crimson**Each, \$.15; per dozen, \$1.50
- — **Single White**Each, .15; per dozen, 1.50
- — **Newport Pink.** Rich salmon pink.....Each, .15; per dozen, 1.50
Seeds No. 9250...Packet, .15
- — **Scarlet Beauty.** Large heads of bright scarlet flowers. Seeds only, No. 9255...Packet, .15
- — **Double Pure White.** Seeds only, No. 9260.....Packet, .05
- — **Double Deep Crimson.** Seeds only, No. 9265Packet, .05
- **Heatherhome's Giant.** Every imaginable color. Seeds only, No. 9245.....Packet, .10
- THALICTRUM (Meadow Rue).** A class of plant grown principally for their attractive foliage, producing large flower-heads of Ageratum-like flowers.
- **adiantifolium.** White flowers.....Each, \$.20; per dozen, \$2.00
Seeds No. 9270...Packet, .10
- **aquilegifolium album.** A form producing lovely white blooms 3 feet high, splendid for a decorative plant but not used much for cutting.....Each, \$.20; per dozen, \$2.00
- **aquilegifolium hybridum.** These hybrids contain many shades of white, pink, lilac, and even deep purple. Choice blending. Seeds only, No. 9271.....Packet, \$.25
- **dipterocarpum.** A new and rare species with long sprays of rosy-purple flowers, with conspicuous yellow anthers. The plant is of strong growth and produces its flower-heads during June and July. Four to 5 feet.....Each, \$.35; per dozen, \$3.50
Seeds No. 9272...Packet, .50
- THERMOPSIS CAROLINIANA.** Plant and spikes resemble Lupins, but flowers are of a clear yellow. June and July. Two and one-half feet. Seeds only, No. 9275.....Packet, \$.15
- THYMUS.** These plants are very useful for the rock garden, or for carpeting and edging. They form very pretty sheets of attractive foliage.
- **lanuginosus.** Produces carpets of woolly leaves. Covered in June and July with pink flowers.
Each, \$.20; per dozen, \$1.75
- **Serphyllum.** A pretty subject for the rockery, forming close mats of dark green foliage and clouds of white flowers.....Each, \$.20; per dozen, \$1.75
- **Serphyllum coccineus.** Same as the above, producing flowers of brilliant crimson.
Each, \$.20; per dozen, 1.75
- TIARELLA CORDIFOLIA (Foam Flower).** Producing handsome bronze-tinted foliage with numerous spikes of creamy-white feathery flowers. A shade-loving plant. One foot. May.
Each, \$.25; per dozen, \$2.50

SEEDS AND PLANTS OF PERENNIALS

- TRADESCANTIA VIRGINICA** (Spider Wort). A very pretty plant branching directly from the ground, with numerous smooth stems. Producing single cup-shaped flowers of a distinct mauve blue. July and August. Two feet.....Each, \$.20; per dozen, \$2.00
Seeds No. 9277..Packet, .10
- TRILLIUM GRANDIFLORUM** (Wood Lily). The earliest perennial in the spring, peeping through the ground soon after the snow has disappeared, producing pure white single flowers. Excellent for the shady border or rockery, or for naturalizing in the woods.
Each, \$.15; per dozen, \$1.50

 - *Europeus*. Large, bright yellow flowers.....Each, .25; per dozen, 2.50
Seeds No. 9273..Packet, .25
 - *Ledebouri*. A tall-growing variety with flowers of brilliant orange. Does not flower until the end of June. Seeds only, No. 9274.....Packet, \$.25
 - *Lichtball*. Large flower of orange yellow.....Each, \$.25; per dozen, 2.50
- TUNICA SAXIFRAGA**. Producing tufts of hair-like stems, terminating with white flowers; flowering for three months; useful in the rockery. Six inches. July to September.
Each, \$.20; per dozen, \$1.75
Seeds No. 9278..Packet, .10
- VALERIANA OFFICINALIS** (Garden Heliotrope). An attractive subject with clean, deeply-cut foliage, and light pink flowers at their best during June. Three to 5 feet.
Each, \$.20; per dozen, \$1.75
- *officinalis alba*. Pure white. Seeds only, No. 9285Packet, \$.10
 - *officinalis rubra*. Showy flowers of a reddish hue. Seeds only, No. 9280.....Packet, .10
- VERBASCUM** (Mullein). A class of plants greatly improved during recent years, and now containing some of the most valuable and attractive border plants. Nothing more stately can be found for the hardy border or along the paths.
- *Caledonia*. Flowers of sulphur yellow suffused bronze, on 4-foot stock. June to August.
Each, \$.30; per dozen, \$3.00
 - *densiflorum*. A variety with large foliage and dense spikes of rich yellow flowers throughout the summer. Four and one-half feet.....Each, \$.30; per dozen, \$3.00
 - *Mars*. Flowers of reddish buff. Three feet.....Each, .30; per dozen, 3.00
- VERONICA** (Speedwell). A splendid class of plants giving us some of our best and most useful material for the hardy border, and it supplies us with shades of rare blue. They succeed in every possible location. Are perfectly hardy and increase readily.
- *amethystina*. Producing dense masses of intense amethyst blue flowers from June to August. Two feetEach, \$.20; per dozen, \$2.00
Seeds No. 9290..Packet, .25
 - *incana*. Deep blue flowers, contrasting effectively with a silvery gray foliage. One foot. July to AugustEach, \$.20; per dozen, \$2.00
Seeds No. 9300..Packet, .15
 - *longifolia subsessilis*. One of the best varieties, producing large spikes of deep blue during July and August. Three feet.....Each, \$.20; per dozen, \$2.00
Seeds No. 9295..Packet, .10
 - *repens*. Producing carpets of Evergreen foliage. Covered with snowy-white flowers in spring.
Each, \$.20; per dozen, \$2.00
 - *rupestris*. A trailing species densely set with deep gentian blue flowers. May and June.
Each, \$.20; per dozen, 2.00
 - *spicata*. Producing long spikes of bright blue flowers in June and July. Eighteen inches.
Each, \$.20; per dozen, 1.75
Seeds No. 9305..Packet, .15
 - *spicata alba*. White form of the above.....Each, \$.20; per dozen, 1.75
 - *Royal Blue*. A new variety growing but 4 inches high and flowering early in June, and appearing for four weeks as a perfect carpet of celestial blueEach, \$.25; per dozen, \$2.50
- VINCA** (Periwinkle). A very useful Evergreen trailing plant, producing during May very dainty blue flowers. It will flourish in dense shades, as well as open locations, and is invaluable for planting under Evergreens, or low-branching trees or shrubs. Valuable for rock gardens or steep banks.
- *Minor*Each, \$.15; per dozen, \$1.50
 - *Minor aurea*. A variegated leaf form of the aboveEach, .25; per dozen, 2.50

SEEDS AND PLANTS OF PERENNIALS

VIOLA (Tufted Pansy). A well-known and valuable free-flowering plant, used principally for ground work under roses or for edging borders. The flowering period may be prolonged by removing the first flowers.

- **Admiration.** Soft purple with dark blotch.....Each, \$.15; per dozen, \$1.50
- **lutea splendens.** Rich golden yellow.....Each, .15; per dozen, 1.50
- **White Perfection.** Very fine white.....Each, .15; per dozen, 1.50
- **calcarata Papilio (The Butterfly Violet).** Lavender blue with white eye.
Each, .20; per dozen, 1.75
- **cornuta (Horned Violet).** Masses of small mauve flowers throughout the summer, and a good plant for the rock garden.....Each, \$.15; per dozen, \$1.50
- **cornuta alba.** A white form of the above.....Each, .15; per dozen, 1.50
- **cornuta George Wermig.** A new and improved variety, very continuous and free-blooming, with large purple flowers.....Each, \$.25; per dozen, \$2.50
- **gracilis.** A very attractive and useful plant of recent introduction. It bears intense violet flowers in great profusion, from early spring to OctoberEach, \$.30; per dozen, \$3.00
Seeds No. 9333.. Packet, .25
- **pedata (Bird's-foot Violet).** Large, rich purple flowers, and distinct finely-divided foliage. Does best in a partly-shaded position.....Each, \$.25; per dozen, \$2.50

YUCCA FILAMENTOSUM (Adam's Needle). An odd and spectacular plant of majestic appearance, forming a large rosette of sword-like leaves and producing stout spikes of white flowers during June and July. Four to 6 feet.....Each, \$.25; per dozen, \$2.50
Seeds No. 9345..Packet, .15

A Wonderful Evergreen Vine

EUONYMUS VEGETUS (Evergreen Bittersweet). A better vine than English Ivy. One of the most popular and valuable of evergreen vines ever offered to the American gardening public, and when better known it will be the most popular of any. The leaves are much larger than *E. Radicans* and of a deep rich green. During the winter the vine is covered with bright red berries, making it doubly attractive. This vine will cling to either wood or stone, and when once established the growth will be very rapid for an evergreen. Our stock is in excellent condition and will please the most critical.

Pot-Grown PlantsEach, \$.35; per dozen, \$3.50

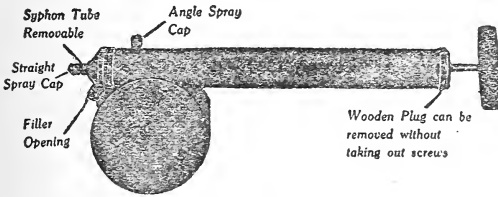

— **radicans.** A valuable Evergreen, vine clinging close to stone and growing fully 20 feet high. If kept closely trimmed this variety will make a fine, close, compact Evergreen hedge.
Each, \$.30; per dozen, \$3.00

— **radicans variegata.** A variegated-leaved form of the above.....Each, .30; per dozen, 3.00

— **Kewensis.** A miniature form of *E. Radicans* suitable for rockeries, covering low walls. Will grow only about 18 inches high.....Each, \$.30; per dozen, \$3.00

SUNDRIES

Auto Hand Sprayer

Auto Hand Sprayer

The most practical hand sprayer for the small garden. This sprayer is made of the best material and will give satisfaction with the hardest wear.

No. 25C. Holding one quart; tin pump, brass tank. The pump cylinder is replated and non-corrosive. This is a continuous sprayer and requires the least amount of exertion.... Each, \$2.00

No. 25E. Holding one-half gallon; tin pump, brass tank..... Each, \$2.50

For extensive use we recommend:

The Auto Spray No. 1

The standard of all compressed-air sprayers; made out of heavy brass with a tank of four gallons capacity. Weight, empty, 9 pounds; height, 2 feet. It is equipped with a carrying strap, so it can be thrown over the shoulder; a fine spray nozzle, solid stream cap and either stop-cock or auto-pop nozzle. After pumping, simply direct the spray.

No. 1A. Brass equipped with hose and regular nozzle\$10.00

No. 1B. Brass, equipped with hose and "Auto-pop" attachment. This attachment controls the flow instantly by pressure of the hand.....\$11.00

Brass 90-degree elbow to enable to spray the under-side of leaves\$.50

Bamboo brass lined extension, 9 feet, with stop-cock\$4.00

Bamboo brass lined extension, up to 20 feet, with stop-cock\$6.00

Auto Spray No. 1

Erado

A new and simple instrument used with gasoline for exterminating weeds in the lawns and walks. This instrument holds about a pint of gasoline and by simply pressing gently from the top enough gasoline will then be injected into the weed to kill same immediately.....Price, \$1.50

Handy Seed Flat

We have arranged to furnish these seed flats for the convenience of amateurs who wish to start seeds indoors. The complete set consists of a newly built flat, crockery for drainage, moss to cover drainage soil, a padder, twelve bamboo sticks to divide the spaces, and twelve wooden labels. All complete for.....\$1.50

Raffia—for tying plants.....Lb., \$.60; 5 lbs., \$2.25

Heatherhome Practical Garden Label

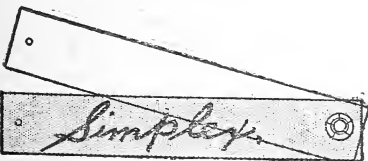

A label made of special weatherproof iron, galvanized and finally japanned black so that it cannot rust. The length of the stem is 18 inches, and the top plate is made so that a celluloid card may be slipped in beneath a cover of mica. Moisture can have no injurious effect on these labels, and they will last indefinitely. Valuable for marking choice specimen plants.....Per dozen, \$3.00; per 100, \$20.00

Simplex Plant Labels

NEAT—CONVENIENT—PERMANENT

Directions: Slide transparent cover to one side, mark with ordinary lead pencil, replace cover, pass wire through both holes and attach.

HEATHERHOME'S INSECTICIDES

In the following list we offer a most critical selection, because we do not believe in offering more than one remedy for a certain evil, and we only offer that one because we have found it superior to all others.

For this reason our offer is most distinct and of especial value to the amateur.

- Aphine.** The most effective remedy against the Aphis, commonly known as Green Lice, or Black Lice. They trouble Roses, Sweet Peas, Nasturtium, Chrysanthemum, etc.
Pint, \$.65; quart, \$1.00; gallon, \$2.50
- Aphis Punk.** In 6x33-inch sheets. Per carton of 12 rolls.....\$.60
- Arsenate of Lead (Paste).** Sure death to the Roseworm, Gypsy Moth, Coddling Moth, or any leaf-eating insects..Lb., \$.40; 5 lbs., \$1.75; 28 and 56-lb. buckets, \$.30 per lb.
- Black Leaf No. 40.** A remedy against the Leaf Curl which attacks Fruit Trees and Snowball Bushes; also excellent for the Chinch Bug on Dahlias.
1½-lb. tin, \$1.00; 2 lbs., \$3.00
- Climax Lawn Sand.** A remarkable weed killer in lawns without disturbing the grass.
Sample tin (about 2 lbs.), \$.35; 3½-lb. tin, \$.60; 7 lbs., \$1.10; 14 lbs., \$1.75; 28 lbs., \$2.50; 56 lbs., \$4.50; 112 lbs., \$8.00.
- Fungine.** Excellent for preventing and remedying mildew on Roses and Phloxes, and blight and wilt on Larkspur, Stock, Cornflowers and Asters.
Pint, \$.65; quart, \$1.00; gallon, \$3.50
- Herbicide.** Just the right material to destroy undesirable growth in roads, pathways, etc.
Quart, \$.60; half gallon, \$1.15; gallon, \$2.00
- Nikoteen.** A tobacco extract for fumigating greenhouses.
1½ oz., \$.40; ½ lb., \$.85; 1 lb., \$1.50
- Pyrox.** A combination of Bordeaux Mixture and Arsenate of Lead. Therefore, the very best spray for Fruit Trees, to produce clean fruit.
Lb., \$.40; 5 lbs., \$1.50; 10 lbs., \$2.75; 25 lbs., \$6.00
- Scaline.** The most effective spray against scales on Fruit Trees or Lilacs..Gallon, \$3.50
- Tobacco Dust.** For fumigating and dusting plants affected with Aphis.
Per lb., \$.15; 5 lbs., \$.60; 10 lbs., \$.80; 50 lbs., \$2.25; 100-lb. bag, \$4.00
- Vermine.** The great enemy of all soil insects.
Quart, \$1.00; gallon, \$3.00; 5-gallon keg, \$14.00

PLANT FOODS

- Farmogerm.** To inoculate Sweet Pea Seeds. Large bottle.....\$.50
- Pulverized Sheep Manure.** Nothing better for general use, even considered better than stable manure. May be spaded into the ground or applied as a top dressing. Use it liberally. Also excellent as a liquid food.
10 lbs., \$.50; 25 lbs., \$1.00; 100 lbs., \$3.00; ton, \$40.00
- Pure Ground Bone.** Excellent for Roses, Shrubs and Sweet Peas.
5 lbs., \$.45; 10 lbs., \$.75; 25 lbs., \$1.45; 100 lbs., \$5.00
- Nitrate of Soda.** A powerful stimulant and must be judiciously applied. Use in very small doses; dry only to the soil. An overdose kills.
5 lbs., \$.65; 10 lbs., \$1.00; 100 lbs., \$8.00
- Humus.** \$1.50 per bag. Special prices on larger quantities.

All prices on this page are subject to change, without notice.

SPECIAL WAR-TIME OFFER OF HARDY PLANTS

We will make up a collection of Hardy Plants containing many of the most desirable and popular sorts for use in the Hardy Garden. The selection must be left entirely to us, but you may be assured of receiving only useful and desirable plants. These special prices are for acceptance before May 1st only:
